The act of translating words and texts from one language into another is actually as old as the written languages and texts themselves. However, as a discipline of study it is comparatively new. But what is it, really? Translation refers to the carrying or communication of the meaning of a text from one language to another. This, to convey the original tone and intent of a message in the target language, while exhibiting sensitivity towards cultural and regional differences between source ...

The Linguistic Approach to Translation / One Hour Translation

It is a critical history, treating translations wherever appropriate as literary works in their own right, and reveals the vital part played by translators and translation in shaping the literary culture of the English-speaking world, both for writers and readers.

The cognitive linguistic approach to translation applies to specific translational phenomena such as translation universals and translation shifts. The relevance theoretic approach reflects that translation involves communicating in two different languages, and since languages differ, the two texts involved cannot share all of their properties.

Linguistic Approaches to Translation - Oxford Handbooks

According to the literary approach, a translation should not be considered a linguistic endeavor but a literary one. Language has an “energy”: this is manifested through words, which are the result of experiencing a culture. This charge is what gives it strength and
