Agile Retrospectives Making Good Teams
Project retrospectives help teams examine what went right and what went wrong on a project. But traditionally, retrospectives (also known as "post-mortems") are only helpful at the end of the project--too late to help. You need agile retrospectives that are iterative and incremental. You need to accurately find and fix problems to help the team today.

Agile Retrospectives: Making Good Teams Great by Esther Derby

Retrospectives: Making Good Teams Great. Let's start by discussing the importance of the sprint retrospective. It is one of the most important components of the scrum framework, but unfortunately, it is one of the most overlooked. As we know in Agile, the team dynamic with fluid communication is critical to the success of the implementation.

40 ideas to spice up your retrospective – Agile Strides

Excellent advice for those desiring more frequent, shorter, better retrospectives.

One of the challenges facing an agile team that holds a retrospective at the end of each one- to four-week iteration is how to keep the meetings fresh. When done this often retrospectives become redundant and team members often simply go through the motions.

Agile Retrospectives: Making Good Teams Great

An agile retrospective allows a team to continuously improve and get better together. This simple practice lets members step back from the day-to-day challenges with product delivery. Instead they focus on the team. "What are we doing well? What can we do better?" The answers to these questions help the team create a more agile mindset.
