Assessing Maritime Power in the Asia-Pacific, edited by Greg Kennedy and Harsh V. Pant, Surrey: Ashgate, 2015, pp. 242, £110. Sarabjeet S. Parmar*. Since taking over in 2009, the Obama Administration considered Asia to be significant for power cooperation and for establishing an international order based on accepted rules and norms. This started the journey of a much-debated concept that was first called the 'Back to Asia' strategy and later re-termed as a 'Rebalance' or 'Pivot to ...

Assessing Chinese Maritime Power. China has steadily built up its maritime capabilities over the past three decades, giving it the ability to contest its littoral seas in the event of conflict. But significant challenges remain before it can control those waters, let alone the broader Pacific Ocean. -- A combination of factors—including geography, the capabilities of other regional states, technological questions, and Beijing's own dubious procurement choices—work to dampen China's ...
