Sacrilege by bakayaro onna Written and completed 4/12/16. He uses his hands only on me. Hands that have fought me and with me, Pushed me out of the line of fire or into the ocean when irritated with me. These hands nourished me when my goal caused me to forget everything else, Staunched the blood and held my wounds together when we only had ourselves to bandage each other after a battle.

Title: Serenade By: bakayaro onna In the afterglow he is dead weight against me - limp, satisfied, comfortable. In the quiet of the room I listen to his breathing, each exhalation accented with a short sound of contentment. He only makes these soft noises when he has been completely wrung out from the pleasure of it all. When it does not transpire it is not because the loving is not adequate ...

The cinema of Japan predates that of Russia, China, and India, and it has been able to sustain itself without outside assistance for over a century. Japanese cinema's long history of production and considerable output has seen films made in a variety of genres, including melodramas, romances, gangster movies, samurai movies, musicals, horror films, and monster films. It has also produced some of the most famous names in the history of cinema: Akira Kurosawa, Hayao Miyazaki, Beat Takeshi, Toshiro Mifune, Godzilla, The Ring, Akira, Rashomon, and Seven Samurai. The Historical Dictionary of Japanese Cinema is an introduction to and overview of the long history of Japanese cinema. It aims to provide an entry point for those with little or no familiarity with the subject, while it is organized so that scholars in the field will also be able to use it to find specific information. This is done through a detailed chronology, an introductory essay, and appendices of films, film studios, directors, and performers. The cross-referenced dictionary entries cover key films, genres, studios, directors, performers, and other individuals. This book is an excellent access point for students, researchers, and anyone wanting to know more about Japanese cinema.

In high school, Nick Torres and Angelo del Valle were inseparable, outsiders who found strength in friendship. The bond between the gay, mixed-race teens turned isolation into brotherhood. Overachieving loner Angelo became "big bro," looking out for cocky, mischievous "little bro" Nick. But everything changed when Nick fell in love and moved away. Angelo tried to be happy for his dear friend, seeking solace in his college studies and a lonely string of one night stands. Then, one late night two years later, Angelo's phone rings. Nick is back in town, and he needs his big bro's help. Nick's dream life has become a nightmare, and he's come to the one person he could always trust for shelter. But when Nick looks to Angelo for more than brotherly affection, Angelo is left to wonder if Nick's feelings are genuine or an effect of his trauma. And if those feelings are genuine, Angelo must then decide if his own feelings for Nick have grown into something deeper as well.

The Routledge Handbook of Japanese Cinema provides a timely and expansive overview of Japanese cinema today, through cutting-edge scholarship that reflects the hybridity of approaches defining the field. The volume's twenty-one chapters represent work by authors with diverse backgrounds and expertise, recasting traditional questions of authorship, genre, and industry in broad conceptual frameworks such as gender, media theory, archive studies, and neoliberalism. The volume is divided into four parts, each representing an emergent area of inquiry: "Decentering Classical Cinema" "Questions of Industry" "Intermedia as an Approach" "The Object Life of Film" This is the first anthology of Japanese cinema scholarship to span the temporal framework of 200 years, from the vibrant magic lantern culture of the nineteenth century, through to the formation of the film industry in the twentieth century, and culminating in cinema's migration to gaming, surveillance video, and other new media platforms of the twenty-first century. This handbook will prove a useful resource to students and scholars of Japanese studies, film studies, and cultural studies more broadly.

This edited volume explores political motives, discourses and agendas in Japanese manga and graphic art with the objective of highlighting the agency of Japanese and wider Asian story-telling traditions within the context of global political traditions. Highly illustrated chapters presented here investigate the multifaceted relationship between Japan's political storytelling practices, media and bureaucratic discourse, as played out between both the visual arts and modern pop-cultural authors. From pioneering cartoonist Tezuka Osamu, contemporary manga artists such as Kotobuki Shiriagari and Fumiyo K?no, to videogames and everyday merchandise, a wealth of source material is analysed using cross-genre techniques. Furthermore, the book resists claims that manga, unlike the bandes dessinées and American superhero comic traditions, is apolitical. On the contrary, contributors demonstrate that manga and the mediality of graphic arts have begun to actively incorporate political discourses, undermining hegemonic cultural constructs that support either the status quo, or emerging brands of neonationalism in Japanese society. The Representation of Politics in Manga will be a dynamic resource for students and scholars of Japanese studies, media and popular cultural studies, as well as practitioners in the graphic arts.
