John "Lofty" Wiseman is the author of the bestselling SAS Survival Handbook, the definitive guide to survival in the wild from Britain's Special Air Service. Now he has compiled the complete guide to surviving among crowds of people, the mazes of office buildings, the dangers of an unfeeling city—put simply, how to stay safe in the urban jungle. Thousands of preventable fatalities occur in the home every year— more than on the roads, more than in the great outdoors. Household chemicals, electricity, cooking knives, and rodent poisons—in the wrong hands and with improper usage, these day-to-day resources bring danger to your home. Add to this the risks of moving through city streets (the threat of rape, muggings, and gang violence) and the menace of natural disasters (floods, earthquakes, blizzards) that cannot be avoided. Every day serves as a constant reminder: The world is truly a frightening place. The SAS Urban Survival Guide advises readers to think practically about urban environments and offers tips and instructions on how to avoid hazards wherever one goes. From self-defense techniques to home security systems to coping with natural disasters, this book teaches readers to recognize danger, make quick decisions, and live confidently in the modern world.

In *Diversity, Crime, and Justice in Canada* hate-crime specialist Barbara Perry brings together 17 of the country's leading scholars to address issues of inequality as they intersect with crime and social justice. Students will discover how collective identities - not just of race, class, and gender, but of religion, ability, sexuality, age - play a crucial part in determining the nature of an individual's encounter with the criminal justice system. Integrating themes of history and context, power and powerlessness, and social and political action throughout, the text examines the concept of difference, the specific issues that different groups face with respect to the justice system, and the kinds of reform necessary to mitigate inequalities. Thoroughly updated throughout, the second edition includes new pedagogical features that immerse students in the practicalities of criminal and social justice. The "Making a Difference" activity at the end of each chapter encourages students to create social change, and the new "Case Study" boxes explore a range of current and historical cases. The addition of a striking new visual program ensures that the second edition of *Diversity, Crime, and Justice in Canada* will be an invaluable resource for any course that examines social inequality in relation to the Canadian criminal justice system.

Dumped by her boyfriend and demoted from WBBB's prime-time spot, radio producer Allie McGuffey has nowhere to go but up. She plans to make her comeback by turning temporary DJ Charlie Tenniel into a household name. And if he's willing to help cure her breakup blues with a rebound fling, that's an added bonus. Charlie just wants to kick back, play good tunes and eat Chinese food. He's not interested in becoming famous. But he is interested in Allie. And after all, what harm is a little chemistry between friends? But suddenly their one-night stand has become a four-week addiction. Night after night on the airwaves, his voice seduces her...and all the other women in town. He's a hit. It looks as if Charlie's solved all Allie's problems...except one. What is she going to do when he leaves?

"Special Circumstances" - These words have sent chills down Tally's spine since her days as a rebellious Ugly. Back then Specials were a sinister rumour - frighteningly beautiful, dangerously strong, breathtakingly fast. Ordinary pretties might live their whole lives without meeting a Special. But Tally's never been ordinary... Now she's been turned into one of them: a superamped fighting machine, engineered to keep the Ugliers down and the Pretties stupid. The strength, the speed, and the clarity and focus of her thinking feel better than anything Tally can remember... most of the time. One tiny corner of her heart still remembers something more. Still, it's easy to tune that out - until Tally's offered a chance to stamp out the rebels of the New Smoke permanently. It all comes down to one last choice: carry out the mission she's programmed to complete, or listen to that tiny, faint heartbeat telling her that something's wrong... Either way, Tally's world will never be the same.

Winner of the 2011 George Orwell Award. One of The Atlantic's top psychology books of 2011. As human beings, we've always told stories: stories about who we are, where we come from, and where we're going. Now imagine that one of those stories is taking over the others, narrowing our diversity and creating a monoculture. Because of the rise of the economic story, six areas of your world - your work, your relationships with others and the environment, your community, your physical and spiritual health, your education, and your creativity - are changing, or have already changed, in subtle and not-so-subtle ways. And because how you think shapes how you act, the monoculture isn't just changing your mind - it's changing your life. In *Monoculture*, F.S. Michaels draws on extensive research and makes surprising connections among disciplines to take a big-picture look at how one story is changing everything. Her research and writing have been supported by the Social Sciences and Humanities Research Council of Canada, the Killam Trusts, and regional and municipal arts councils. Michaels has an MBA, and lives and writes in British Columbia.
