Concentrating on the general shift away from color that began around 1800, Harvey traces the transition to black from the court of Burgundy in the fifteenth century, through sixteenth-century Venice, seventeenth-century Spain and the Netherlands. He uses paintings from Van Eyck and Degas to Francis Bacon, religious art, period lithographs, wood engravings, costume books, newphotos, movie stills and related sources in his compelling study of the meaning of color and clothes.

This American classic has been corrected from the original manuscripts and indexed, featuring historic photographs and an extensive biographical afterword.

As a color, black comes in no other shades: it is a single hue with no variation, one half of a dichotomy. But what it symbolizes envelops the entire spectrum of meaning—good and bad. The Story of Black travels back to the biblical and classical eras to explore the ambiguous relationship the world's cultures have had with this sometimes accursed color, examining how black has been used as a tool and a metaphor in a plethora of startling ways. John Harvey delves into the color's problematic association with race, observing how white Europeans exploited the negative associations people had with the color to enslave millions of black Africans. He then looks at the many figurative meanings of black—for instance, the Greek word melancholia, or black bile, which defines our dark moods, and the ancient Egyptians' use of black as the color of death, which led to it becoming the standard hue for funeral garb and the clothing of priests, churches, and cults. Considering the innate austerity and gravity of black, Harvey reveals how it also became the color of choice for the robes of merchants, lawyers, and monarchs before gaining popularity with eighteenth- and nineteenth-century dandies and with Goths and other subcultures today. Finally, he looks at how artists and designers have applied the color to their work, from the earliest cave paintings to Caravaggio, Rembrandt, and Rothko. Asking how a single color can at once embody death, evil, and glamour, The Story of Black unearths the secret behind black's continuing power to compel and divide us.

A new collection of thought-provoking essays by the best-selling author of Losing the Race examines what it means to be black in modern-day America, addressing such issues as racial profiling, the reparations movement, film and TV stereotypes, diversity, affirmative action, and hip-hop, while calling for the advancement of true racial equality. Reprint.

One journey. Six stories. Mind-blowing fantasy from the Hugo Award winner, "one of the most important science fiction authors" (SF Site). In The Compleat Traveller in Black, six linked tales, comprising one of Brunner's rare ventures into fantasy, relate the legend of a man with many names, who travels the world with a staff made of light and performs his eternal duty by bringing order to a world filled with chaos. What he dispenses is always asked for but not always welcomed by the recipients. And the world becomes, step by slow step, a better place for those who remain. For each generation, there is a writer meant to bend the rules of what we know. Hugo Award winner (Best Novel, Stand on Zanzibar) and British science fiction master John Brunner remains one of the most influential and respected authors of all time, and now many of his classic works are being reintroduced. For readers familiar with his vision, this is a chance to reexamine his thoughtful worlds and words, while for new readers, Brunner's work proves itself the very definition of timeless.

"The book I most often give as a gift to cheer people up." —Hilary Mantel A delightful debut novel set in a department store in Sydney in the 1950s. The women in black, so named for the black frocks they wear while working at Goode's department store, are busy selling ladies' dresses during the holiday rush. But they somehow find time to pursue other goals... Patty, in her mid-thirties, has been working at Goode's for years. Her husband, Frank, eats a steak for dinner every night, watches a few minutes of TV, and then turns in. Patty yearns for a baby, but Frank is always too tired for that kind of thing. Sweet, unlucky Fay wants to settle down with a nice man, but somehow nice men don't see her as marriage material. Glamorous Magda runs the high-end gowns department. A Slovenian émigré, Magda is cultured and continental and hopes to open her own boutique one day. Lisa, a clever and shy teenager, takes a job at Goode's during her school break. Lisa wants to go to university and dreams of becoming a poet, but her father objects to both notions. By the time the last marked-down dress is sold, all of their lives will be forever changed. A pitch-perfect comedy of manners set during a pivotal era, and perfect for fans of The Marvelous Mrs. Maisel, The Women in Black conjures the energy of a city on the cusp of change and is a testament to the timeless importance of female friendship.

An authoritative, impassioned celebration of Black English, how it works, and why it matters

Black on Black provides the first comprehensive analysis of the modern African American literary response to Africa, from W.E.B. Du Bois's The Souls of Black Folk to Alice Walker's The Color Purple. Combining cutting-edge theory, extensive historical and archival research, and close readings of individual texts, Gruesser reveals the diversity of the African American response to Countee Cullen's question, "What is Africa to Me?" John Gruesser uses the concept of Ethiopianism--the biblically inspired belief that black Americans would someday lead Africans and people of the diaspora to a bright future--to provide a framework for his study. Originating in the eighteenth century and inspiring religious and political movements throughout the 1800s, Ethiopianism dominated African American depictions of Africa in the first two decades of the twentieth century, particularly in the writings of Du Bois, Sutton Griggs, and Pauline Hopkins. Beginning with the Harlem Renaissance and continuing through the Italian invasion and occupation of Ethiopia, however, its influence on the portrayal of the continent slowly diminished. Ethiopianism's decline can first be seen in the work of writers closely associated with the New Negro Movement, including Alain Locke and Langston Hughes, and continued in the dramatic work of Shirley Graham, the novels of George Schuyler, and the poetry and prose of Melvin Tolson. The final rejection of Ethiopianism came after the dawning of the Cold War and roughly coincided with the advent of postcolonial Africa in works by authors such as Richard Wright, Lorraine Hansberry, and Alice Walker.

My name is John Black. I used to be your typical nerd, a total weakling, letting bullies like Bobby Graden push me around. Then one day, Bobby and I got hit by a car. Somehow, the accident changed us, as if something inside us responded. It made us strong. More than strong, actually. It gave us power. That power brought us together, our shared secret creating a friendship despite our differences. Bobby and I could do things no one else could, and it was exhilarating, fun. Until the day we found out we weren't alone. And that, for others, power can be deadly serious.

John Fielder, Colorado's preeminent nature photographer, will publish his 50th Colorado book in fall, 2018. In the mold of Colorado's best-selling book of all time, Colorado 1870-2000, Fielder has chosen to represent his state exclusively in black and white. He edited 230 color images from his life's work in Colorado over the past 40 years, and rendered each in blacks, whites, and subtle tones of gray. Without the distraction of color, the viewer engages the shapes, textures, lines, and edges of this most scenic of states as never before. Divided into eight chapters, Fielder spares no subject endemic to his adopted state. From dramatic mountain reflections and wildlife galore, to 19th century mine building facades and ancestral Puebloan ruins, nothing has been left outff,,f,,Jff,,f,,€ff,,f,,\textcept the color! Fielder has written captions for each of the 230 images in the book.
