 This remarkable primate with the curious name is challenging established views on human evolution. The bonobo, least known of the great apes, is a female-centered, egalitarian species that has been dubbed the 'make-love-not-war' primate by specialists.

Bonobo: The Forgotten Ape: Amazon.co.uk: De Waal, Frans ...  
 The bonobo, least known of the great apes, is a female-centred, egalitarian species that has been dubbed the 'make-love-not-war' primate by specialists. In bonobo society, females form alliances to intimidate males, sexual behaviour (in virtually every partner combination) replaces aggression and serves many social functions, and unrelated groups mingle instead of fighting.

Bonobo: The Forgotten Ape: Amazon.co.uk: De Waal, Frans ...  
 The Bonobos are, as the subtitle explains, "the forgotten ape." Although as closely related to us as the more commonly know chimpanzee, not nearly as much is known of the bonobo. What is known, though, is fascinating.

Bonobo: The Forgotten Ape by Frans de Waal  
 A Rare View of the Forgotten Ape: Documenting Bonobos in Their Natural Habitat February 14, 2020 Many of the bonobo images most people have seen show rescued and rehabilitated individuals, who differ from those living in their natural habitats in key ways.

Bonobo: The Forgotten Ape | NHBS Academic & Professional Books  
 But often they know less about a primate that is equally close and just as fascinating – the bonobo, "the forgotten ape." Like chimpanzees, bonobos share more than 98 percent of DNA with humans. But bonobos, though sometimes violent, are more peaceable. They live in matriarchal groups and famously use sex as a social tool – to manage conflict and tension or even just say "hello."

The endangered bonobo: Africa's forgotten ape  
 The bonobo, least known of the great apes, is a female-centered, egalitarian species that has been dubbed the 'make-love-not-war' primate by specialists. In bonobo society, females form alliances to intimidate males, sexual behavior (in virtually every partner combination) replaces aggression and serves many social functions, and unrelated groups mingle instead of fighting.

Bonobo: The Forgotten Ape  
 hunting, tool technology, and other masculine fortes. Bonobo society seems ruled by the 'Make Love, Not War' slogan of the 1960s rather than the myth of a bloodthirsty killer ape that has dominated...

Bonobo: The Forgotten Ape - The New York Times  
 The bonobo (/ b ? n oʊ b oʊ, ? b ? n ? b oʊ /; Pan paniscus), also historically called the pygmy chimpanzee and less often, the dwarf or gracile chimpanzee, is an endangered great ape and one of the two species making up the genus Pan; the other being the common chimpanzee (Pan troglodytes). Although bonobos are not a subspecies of chimpanzee (Pan troglodytes), but rather a distinct ...
