a result of it. It is the primary medium of construction and dissemination of knowledge, and structures our thought processes in important ways that constitute our identity. In very complex ways, it interacts with the social, political and economic power structures that remain significant in defining the identities of individuals and societies. The essays in this volume create an awareness and understanding about the role of linguistic context in negotiating identity. The book explains identity and the complex relations between language and several aspects of our society. It explores identity through text and context, and will serve to trigger a novel discourse around the centrality of identity in contemporary society.

Recipient of a 2021 Most Promising New Textbook Award from the Textbook & Academic Authors Association (TAA) "Statistics with R is easily the most accessible and almost fun introduction to statistics and R that I have read. Even the most hesitant student is likely to embrace the material with this text." —David A.M. Peterson, Department of Political Science, Iowa State University Drawing on examples from across the social and behavioral sciences, *Statistics with R: Solving Problems Using Real-World Data* introduces foundational statistics concepts with beginner-friendly R programming in an exploration of the world 's tricky problems faced by the "R Team" characters. Inspired by the programming group "R Ladies," the R Team works together to master the skills of statistical analysis and data visualization to untangle real-world, messy data using R. The storylines draw students into investigating contemporary issues such as marijuana legalization, voter registration, and the opioid epidemic, and lead them step-by-step through full-color illustrations of R statistics and interactive exercises. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides.
