This guide is designed to assist fiscal policy team members in assessing current standards and practices of school transportation systems in relation to the total school program. Team members should read the guide independently to determine their own familiarity with requirements essential to school transportation operation. An introductory statement, school transportation goal, and one or more standards that serve as reference points against which current practices can be assessed are provided in each of eight sections: (1) organization and administration; (2) financial management; (3) facilities management; (4) equipment management; (5) human resources management; (6) operations; (7) pupil management; and (8) public relations. Results to questions answered independently by team members should be used as a basis for discussion and help facilitate improving the district's school transportation program. (EJS)

Over the years law enforcement agencies throughout America have acquired a blemished reputation for the occasional enforcement contact that society has considered to be a crime perpetrated against citizens, whether innocent or not. Even the California Highway Patrol has endured an unfortunate criminal act, when one of its own murdered an innocent woman in San Diego during the Christmas Season of 1986. By writing this book, it is my intention to contribute to the reparation of the tarnished reputations of all American law enforcement agencies. I write this book now after 25 years, since my retirement from the California Highway Patrol. I had always intended to document the testimonials of my many close encounters of a God kind and of the literal hundreds of salvation experiences that I was privileged enjoy. This book contains just a few, and I might add that these are the most memorable. It has been nearly two decades since I last spoke of them. But this in no means diminishes there impact and spiritual import, since anything of the spirit is timeless and therefore eternal, even as God, Himself. It is my sincere prayer for you that your heart will be stirred towards Godliness as you read of my memoirs and that as you do so, your soul will be refreshed with His love and goodness! As to the names of those individuals involved, I intentionally used fictitious names, partial names or initials for privacy purposes. However with permission, I have given notable mention of my good friend and brother in arms, State Traffic Officer, Allen Wilkerson. Respectfully Submitted, Ed Marr, STO (retired)

The Cal/OSHA Pocket Guide for the Construction Industry is a handy guide for workers, employers, supervisors, and safety personnel. This latest 2011 edition is a quick field reference that summarizes selected safety standards from the California Code of Regulations. The major subject headings are alphabetized and cross-referenced within the text, and it has a detailed index. Spiral bound, 8.5 x 5.5"

This book gives an historical overview of all the fifty State Police and Highway Patrol organisations, together with the uniform and badge descriptions and state law enforcement museums where they exist. Includes 218 black & white, 226 coloured illustrations and 81 colour paintings of uniforms and badges.

Annotation "The goal of this book is to provide a quick reference guide for law enforcement officers in their quest to furnish professional police services to their communities. Designed to be a handy source for the study of criminal procedures, this guide has assembled numerous court cases that will assist officers in dealing with the issues they may often encounter."
