regarding specimen management and is the only single source for the specimen management policies required for laboratory results that are accurate, significant, and clinically relevant.

This volume documents the analysis of excavated historical archaeological collections at the Cape of Good Hope, South Africa. The corpus provides a rich picture of life and times at this distant outpost of an immense Dutch seaborne empire during the contact period. Representing over three decades of excavation, conservation, and analysis, the book examines ceramics, glass, metal, and other categories of artifacts in their archaeological contexts. An enclosed CD includes a video reconstruction plus a comprehensive catalog and color illustrations of the artifacts in the corpus. The parallels and contrasts this volume reveals will help scholars studying the European expansion period to build a richer comparative picture of colonial material culture.
