Powermate 5000 natural gas / propane conversion kit uses an adapter that makes it possible to operate an engine on three different fuels propane, natural gas, and gasoline. Adapters will mix the propane or natural gas into the air stream above the gasoline carburetor. The gasoline carburetor remains basically untouched. So this kit is not a conversion, it is an adaptation. We are unsure if you ...

If your generator engine is running but is producing no or low output, the circuit breaker is the first thing you should check. The breaker is a safety feature designed to automatically switch off if a surge of electricity or overload is detected. A surge can be caused by using a device that draws more power than the breaker is rated for, using multiple 'heavy load' devices at the same ...
