Complete Idiot's Guide to Visual Basic 6 The Complete ...

The Complete Idiot's Guide® to Programming Basics is ideal for the computer user who has heard techy friends talk about loops and arrays or read bits and pieces about programming in glossy computer magazines but really wouldn't know how to start making a program if he or she had to. This books chapters present content in a gradual yet entertaining way on how basic programming concepts are put together to build simple but albeit fundamental programming results.
