Concrete Repair Rehabilitation And Retrofitting

The 6 th International Conference on Concrete Repair,
Rehabilitation and Retrofitting (ICCRRR 2022) will
focus on service life extension of existing
infrastructure and durability design of new concrete
structures. The fields of concrete repair, rehabilitation
and retrofitting, as well as concrete durability and
structural performance remain some of the most
relevant for modern civil and structural engineering.

Therefore, repair and rehabilitation of concrete is
becoming inevitable, and an industry of importance
equivalent to construction industry. Fibre-reinforced
polymer (FRP) composite materials with their high
strength-to-weight ratio, is considered an innovative
way for strengthening of concrete structures, while
adding minimal additional weight to structures.
