#1 NEW YORK TIMES BESTSELLER • Bren é Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she ' s showing us how to put those ideas into practice so we can step up and lead. Look for Bren é Brown ' s new podcast, Dare to Lead, as well as her ongoing podcast Unlocking Us! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don ' t pretend to have the right answers; we stay curious and ask the right questions. We don ' t see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don ' t avoid difficult conversations and situations; we lean into vulnerability when it ' s necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we ' re choosing not to invest in developing the hearts and minds of leaders at the exact same time as we ' re scrambling to figure out what we have to offer that machines and AI can ' t do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Bren é Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, " One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It ' s learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It ' s why we ' re here. " Whether you ' ve read Daring Greatly and Rising Strong or you ' re new to Bren é Brown ' s work, this book is for anyone who wants to step up and into brave leadership.

The main objective of this report is to review the monitoring and evaluation (M&E) frameworks, tools and guidance documents that are available for climate-smart agriculture (CSA), and in particular for objective (" pillar ") two on adaptation and resilience. The report is a literature review and does not propose a new methodology. It is not an exhaustive list, but summarises the main M&E frameworks. This report represents the first step towards the development of operational guidelines for the design and implementation of national M&E frameworks for CSA, to be developed during the first quarter of 2019. The envisioned operational guidelines will address the core constraints and needs of Member States on both the design and implementation of an M&E system that can simultaneously address CSA and sector reporting requirements for the 2030 Agenda climate instruments. These guidelines will address the principal need expressed by Member States that M&E systems and indicators should be simple and not onerous. The intended users are practitioners designing CSA projects at country level and policy-makers coordinating national-sector monitoring and reporting efforts on climate change under the following three global agreements: the United Nations 2030 Agenda for Sustainable Development, the Sendai Framework for Disaster Risk Reduction, and the United Nations Framework Convention on Climate Change (UNFCCC) Paris Agreement of 2015.

In the journal she is keeping for English class, sixteen-year-old Tish chronicles the changes in her life when her abusive father returns home after a two-year absence.

The road to sobriety is hard, and I don't intend to sugar coat any part of it for you. In this book I will take it back to the beginning. My life was that of a hardcore weekend binge drinker, one blackout night after another. I welcome you into my rock bottom moments, my losing all control, and my putting my life back together, piece by piece. Sober as F*** is a personal memoir of my first two years of sobriety, but it is not only about becoming sober from alcohol. I was forced to face and accept many sobering realities about myself along the way when I put down the bottle. Everything in my life had to be broken down to nothing in order to rebuild it from the ground up. I would have to acknowledge my unhealthy relationships with men, come to terms with depression and anxiety, and to realize that I had been drowning all of my issues and emotions away, one swig of vodka at a time. In the beginning of my sobriety, I looked for support in many places. All of the books and stories I found never fit what mine looked like. So this one is for all the people out there with stories like mine, looking for reassurance that there can be a light at the end of the tunnel. I was so desperate to find that kind of reassurance during my journey, so I hope my story can be that for you. To the millennial weekend binger, to the young woman so desperate to feel love, to the one losing all hope that things can get better ... This one is for you.

The Films of Kore-eda Hirokazu: An Elemental Cinema draws readers into the first 13 feature films and 5 of the documentaries of award-winning Japanese film director Kore-eda Hirokazu. With his recent top prize at the Cannes Film Festival for Shoplifters, Kore-eda is arguably Japan ' s greatest living director with an international viewership. He approaches difficult subjects (child abandonment, suicide, marginality) with a realistic and compassionate eye.The lyrical tone of the writing of Japanese film scholar Linda C. Ehrlich perfectly complements the understated, yet powerful, tone of the films. From An Elemental Cinema, readers will gain a special understanding of Kore-eda ' s films through a novel connection to the natural elements as reflected in Japanese traditional aesthetics.An Elemental Cinema presents Kore-eda ' s oeuvre as a connected whole with overarching thematic concerns, despite frequent generic experimentation. It also offers an example of how the poetics of cinema can be practiced in writing, as well as on the screen, and helps readers understand the films of this contemporary director as works of art that relate to their own lives.

When Zane and Megan crack the Secret, they stumble across Project Net Rider. The awesome Cyber Warfare program immerses the user in virtual reality, and has a netbike to infiltrate any computer in the new global network. But the software is dangerous and in the wrong hands, capable of unlimited destruction. So when the Underground's most notorious hacker steals a copy, the entire world is threatened. And the two friends have to risk everything to stop him.

Now on Netflix as The Call to Courage 'She's so good, Bren é Brown, at finding the language to articulate collective feeling' Dolly Alderton Every time we are faced with change, no matter how great or small, we also face risk. We feel uncertain and exposed. We feel vulnerable. Most of us try to fight those feelings - or feel guilt for feeling them in the first place. In a powerful new vision Dr Bren é Brown challenges everything we think we know about vulnerability, and dispels the widely accepted myth that it's a weakness. She argues that, in truth, vulnerability is strength and when we shut ourselves off from vulnerability - from revealing our true selves - we distance ourselves from the experiences that bring purpose and meaning to our lives. Daring Greatly is the culmination of 12 years of groundbreaking social research, across every area of our lives including home, relationships, work, and parenting. It is an invitation to be courageous; to show up and let ourselves be seen, even when there are no guarantees. This is vulnerability. This is daring greatly.

Algebra is tough. We think all kids say that so we came up with a workbook that targets learners from Grades 6-8. The purpose of this workbook is to challenge a student's understanding of algebra by using age-appropriate examples. Encourage your child to use this book as a reviewer or as an introduction to the subject. So what are you waiting for? Secure a copy today!
