By Lady Francesca Speranza Wilde From Ancient Legends, Mystic Charms, and Superstitions of Ireland [1887]. It is especially dangerous to be out late on the last night of November, for it is the closing scene of the revels—the last night when the dead have leave to dance on the hill with the fairies, and after that they must all go back to their graves and lie in the chill, cold earth ...

Almost every religious mythology contains the primordial motif of death and rebirth and portrays the posthumous journey of the deceased following death. Myths of the afterlife exist in all cultures, including that of the ancient Greeks and Egyptians, Babylonians, Romans and Celts and continue to manifest in living faiths such as Hinduism, Buddhism, Judaism, Christianity and Islam. Although human consciousness has evolved over time, the mystery of death remains beyond rational perception and gives rise to feelings of anxiety and uncertainty. Inquiring whether death may be a transition to rebirth requires looking back into the universal language of myth, which symbolizes the germ of life existing in an afterlife state. As will be shown, this ancient model of the otherworldly journey and resurrection continues to appear in the near-death experience.

Identifies a trend in 19th-century art and literature that reconciled love and death; demonstrates how it constituted a break from ideas in the premodern era, and surveys some of its modern manifestations. Annotation copyright by Book News, Inc., Portland, OR

Solariad of Surazeus - Guidance of Solaria presents 114,920 lines of verse in 1,660 poems, lyrics, ballads, sonnets, dramatic monologues, eulogies, hymns, and epigrams written by Surazeus 2006 to 2011.

This volume explores current images of afterlife/afterdeath and the presence of the dead in the imaginations of the living in Indian and European traditions. Specifically, it focuses on the deepest and most fundamental uncertainty of human existence---the awareness of human mortality, on which depends any assignment of meaning to earthly existence as also to notions of worldly and otherworldly salvation. This central idea is addressed in the literature, arts, audiovisual media and other cultural artefacts of the two traditions. The chapters are based on two main assumptions: First, that one cannot report on the direct experience of death; so it is only possible to speak allegorically of it. Second, in contemporary Western societies, marked by structural atheism, people look at literature, the arts and mass media to study their depiction and reading of traditionally religious questions of disease, death and the Beyond. This is in contrast to Asian civilizations whose preoccupation with death and Beyond is persistent and perhaps central to the civilizations ' highest thought. The chapters cover a wide spectrum of disciplinary approaches, from psychoanalysis to religious, anthropological, literary and film studies, from sociology and philosophy to art history, and address issues of unsettling power: comforting illusions of afterlife; the relations between afterlife and fertility; visions of technological immortalization of mankind; the problem of thinking about death after the " death of God " ; socialist utopias of bodily immortality; fear of Hell and punishment; different concepts in relating the living and the dead; near-death experiences; and cultural practices of spiritualism, occultism and suicide.

Explores the ways poets address the difficult question of how to remember, and commemorate, those killed in the First World War and beyond.

From Herodotus to The Mummy, Western civilization has long been fascinated with the exotic myths and legends of Ancient Egypt but they have often been misunderstood. Here acclaimed Egyptologist Joyce Tyldesley guides us through 3000 years of changing stories and, in retelling them, shows us what they mean. Gathered from pyramid friezes, archaeological finds and contemporary documents, these vivid and strange stories explain everything from why the Nile flooded every year to their beliefs about what exactly happened after death and shed fascinating light on what life was like for both rich and poor. Lavishly illustrated with colour pictures, maps and family trees, helpful glossaries explaining all the major gods and timelines of the Pharaohs and most importantly packed with unforgettable stories, this book offers the perfect introduction to Egyptian history and civilization.

Hidden from mortal eyes are the creatures of darkness that coexist with mortals: Shadows, vampires, fallen angels, demons, shape shifters, succubi, and the likes. Seventeen-year-old Amber enters their world by chance when her brother, Dallas, sets her up with a summer job in Scotland. Dallas has spied something in the woods he thinks could make them rich beyond their wildest dreams. But instead of finding riches, Amber unknowingly enters a paranormal race--and promptly wins the first prize--a prize that comes with no exchange policy, and for which many would kill. Soon, she discovers her new boss, Aidan, didn't employ her for her astounding housekeeping skills, and no one is who they say they are. But by that time she's far too deep in a world she never knew existed, a world of love bonds, dark magic, ancient enemies and immortals. As the dark forces slowly conspire against Amber, her naivety and love for Aidan catapults her into a calamitous series of otherworldly events. With every immortal creature hunting for her, whom can she trust with her life? A JOB FROM HELL is the first book in the Ancient Legends series. The sequel, Doomed, is out now.

Beyond the Threshold introduces readers to afterlife beliefs and experiences in world religions. The second edition has been revised and updated throughout, including a new chapter on afterlife beliefs and practices in selected African traditions, new research on the afterlife and near-death experiences, the addition of key words and definitions to each chapter, and more. Christopher M. Moreman offers an introduction to afterlife beliefs in ancient cultures, which are essential to understanding the roots of many modern ideas about death. He examines the folklore and doctrines of major world religions, including Judaism, Christianity, Islam, Hinduism, Buddhism, Chinese religions, and several African traditions. He also discusses psychic phenomena across traditions, such as mediums, near-death and out-of-body experiences, and past-life memories. While ultimately the afterlife remains unknowable, the second edition of this unique, in-depth exploration of both beliefs and experiences can help readers reach their own understanding of the afterlife and how to live.

Beyond the Horizon is about a young man's search for himself and his purpose in life. The book takes place in the future after a nuclear holocaust was released upon the world. Miles rescues the beautiful Sara from some grotesque man-creatures. While exploring this primordial world, they have many adventures which include evil shape-shifters, witches that practice the dark arts, monster rats, and the dreaded demon beasts. As they travel on together, Sara and Miles become very close and Miles begins to have feelings that he doesn't understand. They also learn to continue to seek what is Beyond the Horizon.

In 2003 John Michael Greer became the seventh Grand Archdruid of the Ancient Order of Druids in America (AODA), an initiatory organization teaching Celtic nature spirituality which was founded in 1912. The outcome was that his writings began to stray into territory very far from the Hermetic occult philosophy that had been the previous focus of his career. The essays included in this volume chronicle some of the themes he explored as a result: Druidry, Jungian psychology, politics, history, and the shape of the future in a society in decline.
