[delco moraine caliper | eBay](#)

The parking brake lever is mounted on the body sill and uses a balancing linkage to actuate individual cables to each rear wheel brake. Adjustment of the caliper mechanism to compensate for pad wear is automatic. A Delco Moraine/NDH Antilock Brake System (ABS-III A) is used to reduce the tendency of any wheel to lose traction (lock) while braking.

[Braking System with Delco Moraine ABS IIIA](#)

The caliper acts as a clamp to press the brake pads against the brake rotor when the brakes are applied. These original equipment disc brake calipers are manufactured to fit your GM vehicle, providing the same performance, durability, and service life you expect from General Motors.

The calipers are marked "Delco Moraine 5474 338 (driver side) and 5474 339 (passenger side). So I need a front disc brake flex hose that is about 19" long to allow the full turning radius of the truck. Is there a part number chart anywhere here on NastyZ that documents the flex hose lengths to the Camaro model years? Thanks May 6, 2011 #2. mjoc Veteran Member. Messages: 3,528 Likes Received: 3 ...
