Kafka on the Shore displays one of the world ' s great storytellers at the peak of his powers. Here we meet a teenage boy, Kafka Tamura, who is on the run, and Nakata, an aging simpleton who is drawn to Kafka for reasons that he cannot fathom. As their paths converge, acclaimed author Haruki Murakami enfolds readers in a world where cats talk, fish fall from the sky, and spirits slip out of their bodies to make love or commit murder, in what is a truly remarkable journey.

"One icy winter's evening in Budapest, a man runs straight into John Taylor as he walks home through the narrow streets. John falls over into the snow and looks up at the man's face. 'I felt very afraid. Because what I saw was me. My face looking down at me. My mouth saying sorry.' Who is the man, and how will John's life change?

The World Is No Longer Flat Culo is an art, fashion, and pop-culture movement that defies all national, cultural, and linguistic boundaries. No matter if you were raised to call it derriere, tush, rear end, or booty, culo is the new epicenter of female sexuality, desire, and empowerment. Over the past decade,

some of the world's most celebrated women have subtly shifted our long-held ideals of physical perfection toward a shape that is more authentic and bold. While culo has long been venerated in certain cultures, it is now becoming the object of worldwide mainstream admiration. This emerging global love affair with culo is as much about the blending of African, Latin, European, and Asian beauty as it is about celebrating the female form's most coveted asset. Culo by Mazzucco pays tribute to this phenomenon through a singular artistic vision. In more than 200 photographs and artworks created on location around the world, a diverse group of women—some already legendary, some about to become so—embody the spirit of culo and the start of a new era of beauty.

Christian Reflections on The Leadership Challenge is a faith-based companion to the best-selling leadership book of all time--The Leadership Challenge. Grounded in Jim and Barry's time-tested research, Christian Reflections on The Leadership Challenge describes their Five Practices of Exemplary Leadership® --Model the Way, Inspire a Shared Vision, Challenge the Process, Enable Others to Act, and Encourage the Heart—and offers practical guidance and inspiring examples about how Christian leaders can have a powerful impact in their workplaces, communities, and congregations by bringing their faith into their leadership. In addition to Jim and Barry's foundational wisdom, the book brings together five leaders who reflect on the Five Practices from a Christian perspective. John C. Maxwell, David McAllister-Wilson, Patrick Lencioni, Nancy Ortberg, and Ken Blanchard share insights and stories culled from personal experience and the lives of other Christian leaders who have accomplished extraordinary things in churches, communities, classrooms, and corporations. Their thoughtful reflections on the role of faith in leadership will propel leaders and aspiring leaders

--70% more content than first edition --updated to 2014 --30 photos and graphics In his most powerful investigation to date, award-winning journalist Walter M. Brasch digs into the natural gas industry and extracts the truth about fracking. This is the long-awaited second edition to the critically-acclaimed first edition that explored all aspects of the controversies surrounding fracking. Hydraulic horizontal fracturing, better known as fracking, is the process of injecting as much as seven million gallons of water, proppants (like silica sand), and toxins into the earth to fracture the shale and extract methane. Politicians want natural gas drillers to come into their states, primarily because of the numbers of well-paying jobs the industry creates, the overall economic benefits, and the lower costs of natural gas to the consumer. Dr. Brasch investigates those claims, and provides an extensive look at the money trail between the industry and the politicians' campaign receipts. Combining both scientific evidence and extensive interviews with those affected by fracking throughout the country, he concludes that errors made by the natural gas industry as well as the process itself have caused significant public health and the environmental problems that also affect agriculture, wildlife, and livestock.

Many mysteries of the atom have come unraveled, but one remains intractable- what Frank Close calls the "Infinity puzzle". The problem was simple to describe. Although clearly very powerful, quantum field theory was making one utterly ridiculous prediction: that certain events had an infinite probability of occurring. The Infinity Puzzle charts the birth and life of the idea, and the scientists, who realized it. Based on numerous firsthand interviews and extensive research, this book captures an era of great mystery and greater discovery. Even if the Higgs boson is never found, renormalization- the pursuit of an orderly universe- has led to one of the richest and most productive intellectual periods in human history.--[book jacket]

Two Scottish cousins--bound by far more than blood ties and the rugged Highlands their clan calls home--must break an ancient curse by marrying outsiders. But, a battle soon erupts as the future of the cursed clan hangs in the balance.

The nature and directionality of halogen bonding; the sigma hole, by Timothy Clark, Peter Politzer, Jane S. Shing Ho Principles and applications of halogen bonding in medicinal chemistry, by Frank M. Boeckler Halogen bond in molecular conductors and magnets, by Marc Fomigu é Halogen bonding towards design of organic phosphors, by Wei Jun Jin Halogen bond in photoresponsive materials, by Pierangelo Metrangolo, Giuseppe Resnati, Arri Priimagi

George Forsdike ran a nursery garden at Shrublands, Suffolk for nearly 50 years, specialising in chrysanthemums and other cut flowers that he sent to Covent Garden to sell. Shrublands changed from a country manor house to a health farm, where many famous people came to rest and recuperate. George tells of his life, working quietly on the four acres of his garden, together with his wife Claire.

Jake Strand and his sister Kayla are high school students at an elite school near Washington, DC. When Jake's best friend, Amar, the son of the Indian ambassador, disappears, they take it upon themselves to try to find him. The ambassador isn't concerned; he's more interested in a cutting-edge laptop that Amar loaned Jake - a laptop that's soon stolen from Jake at gunpoint. Assisted by Kayla's best friend Hannah, the three use a combination of old-fashioned detective work as well as computers and social media to follow Amar's trail. From seedy hotels to the Indian Embassy to the Lincoln Memorial, their quest will take them all over the nation's capital.
