A Simplified Guide To Forensic Document Examination

In forensic science, questioned document examination is the examination of documents potentially disputed in a court of law. Its primary purpose is to provide evidence about a suspicious or questionable document using scientific processes and methods. Evidence might include alterations, the chain of possession, damage to the document, forgery, origin, authenticity, or other questions that come up when a document is challenged in court.

Questioned document examination - Wikipedia

Forensic Document Examination (FDE) is a forensic science discipline in which expert examiners evaluate documents disputed in the legal system. Documents may be defined broadly as being any material bearing marks, signs or symbols intended to convey a message or meaning to someone.
