## *Common Core Algebra I - eMathInstruction*

eMathInstruction was created on the simple premise that traditional textbooks are no longer the future of math education. Our system of electronic curricula, videos, and printed workbooks are scaffolded to foster deep understanding and develop mathematical skills. We encourage students to keep thinking and solving problems.

The Common Core State Standards covered in Common Core Algebra I by eMath Instruction were chosen to align to the End of Year (EOY) Assessment Standards chosen by the PARCC Testing Consortium. Two documents on this page have been included to show how we have aligned our lessons to these standards. The first shows the standards on the EOY Assessment along with the lessons in which they are covered.

series partially meet  
expectations for developing  
conceptual understanding of  
key mathematical concepts,  
especially where called for  
in specific standards or  
cluster headings. Across the  
series, conceptual  
understanding is developed  
in the instructional portion  
of the lessons as students  
are guided through the  
mathematical concepts by the  
teacher and/or instructional  
videos.

*E Math Instruction Common  
Core Algebra | [www.notube](http://www.notube)*

We develop general methods for solving linear equations using properties of equality and inverse operations.

Thorough review is given to review of equation solving from Common Core 8th Grade Math. Solutions to equations and inequalities are defined in terms of making statements true. This theme is emphasized throughout the unit.

...

Common core differs from the way that mathematics is normally taught - instead of being taught to solve, students are encouraged to understand the underlying mathematical processes that make up the math that they do in everyday life. This gives them a stronger foundational understanding of mathematics and can benefit students who are planning on eventually going to college.
