IRCA Energy Management Systems Certification Scheme | CQI ...

description The energy audit is one of the first tasks to be performed in accomplishing an effective energy management program. It is designed to improve the energy efficiency and reduce the energy operating costs of a facility. The energy audit is sometimes called an energy survey or an energy analysis, so that it is not confused with a financial audit. The term " audit " should be avoided if it clearly produces a negative image in the mind of a particular business, organization, or ...
