Today, we tend to react skeptically to claims about our access to the animal mind, the political importance of compassion, and the natural origins of community. However, such claims were widespread in the Restoration and eighteenth century, the long Age of Sensibility. Even so famous a skeptic as the Enlightenment philosopher David Hume wrote that animals undoubtedly feel, think, love, hate, will, and even reason. In "The Animal Claim," Tobias Menely shows that for Hume and other thinkers of his time, the acknowledgment of creaturely voice was crucial to their theories of community. Looking primarily to the long eighteenth century in Britain, Menely argues that sympathyincluding sympathy with animalscame to be regarded as a foundational resource of social relation, and that it fell to poets, in particular, to represent creaturely voice in the public sphere. Menely connects this development to new ideas of political community in Britain and the emergence of a viable discourse of animal rights in the age of legislative reform. The result is an original contribution to both animal studies and eighteenth-century scholarship."

These essays examine European travel writing from 1500 to 1800, with an emphasis on travel to the East Indies, Africa, and the Levant. By focusing on voyages to the East, the essays allow the voices of marginalised travellers to speak.

An examination of awareness of the ecclesiastical doctrine of *discretio spirituum*, the means of testing whether visions were truly of divine origin, in the works of medieval women visionaries from Bridget of Sweden to Joan of Arc.

From the New York Times and USA Today bestselling author of the Driven series. ONE NIGHT. THAT'S ALL IT WAS SUPPOSED TO BE. Reeling from the sudden loss of her sister, Haddie Montgomery has sworn off relationships. All she wanted from Beckett Daniels was a sexy distraction to help her escape her pain for just a little while....There weren't supposed to be any strings attached--so why can't she shake the memory of that unforgettable night from her thoughts? Or the taste of his kiss from her lips? No matter how hard Haddie tries to forget about him, Becks relentlessly tries to prove that she should start living for today. But she is determined to avoid romantic commitment, and she can always use her ex-boyfriend's reappearance to help snuff out the slow burn within her that Becks has sparked.... Or will fate force her to realize that this kind of connection doesn't come along very often and a chance at love is worth the risk?

The landscape of American literature was fundamentally changed when Flannery O'Connor stepped onto the scene with her first published book, *Wise Blood*, in 1952. Her fierce, sometimes comic novels and stories reflected the darkly funny, vibrant, and theologically sophisticated woman who wrote them. Brad Gooch brings to life O'Connor's significant friendships -- with Robert Lowell, Elizabeth Hardwick, Walker Percy, and James Dickey among others -- and her deeply felt convictions, as expressed in her communications with Thomas Merton, Elizabeth Bishop, and Betty Hester. Hester was famously known as "A" in O'Connor's collected letters, *The Habit of Being*, and a large cache of correspondence to her from O'Connor was made available to scholars, including Brad Gooch, in 2006. O'Connor's capacity to live fully -- despite the chronic disease that eventually confined her to her mother's farm in Georgia -- is illuminated in this engaging and authoritative biography. Praise for Flannery: "Flannery O'Connor, one of the best American writers of short fiction, has found her ideal biographer in Brad Gooch. With elegance and fairness, Gooch deals with the sensitive areas of race and religion in O'Connor's life. He also takes us back to those heady days after the war when O'Connor studied creative writing at Iowa. There is much that is new in this book, but, more important, everything is presented in a strong, clear light."-Edmund White "This splendid biography gives us no saint or martyr but the story of a gifted and complicated woman, bent on making the best of the

difficult hand fate has dealt her, whether it is with grit and humor or with an abiding desire to make palpable to readers the terrible mystery of God's grace."-Frances Kiernan, author of Seeing Mary Plain: A Life of Mary McCarthy "A good biographer is hard to find. Brad Gooch is not merely good-he is extraordinary. Blessed with the eye and ear of a novelist, he has composed the life that admirers of the fierce and hilarious Georgia genius have long been hoping for."-Joel Conarroe, President Emeritus, John Simon Guggenheim Foundation
