Have you ever wondered how you can make real spiritual progress as a Christian? Have you wanted to know how you might better defeat nagging sins, and find new freedom? Sanctification: A User's Guide to Becoming More Like Jesus offers you a deep understanding of precisely how you can grow in likeness to Jesus Christ. Based upon a careful study of the teachings of the Bible, and great leaders of the Reformation, Sanctification presents a clear and compelling approach to daily practices which will actually assist the Christian in spiritual growth through relying on the grace of God to transform them. Starting with a framework for understanding what holiness is, Sanctification shows you how to: desire holiness, rely on God's grace, apprehend God's life-altering love, grow in faith and repentance, deny one's self, and engage the church. While many books on sanctification emphasize one or two aspects of the Christian's growth in holiness Sanctification presents a complete approach to a biblical lifestyle which helps one grow more like Christ.

Originally published in 1985, the various chapters in this volume give examples of research on all three aspects of text understanding - namely, structure, world knowledge and process. More than this, however, the research described represents a shift in emphasis from studying stories, which dominated the field in the late 1970s, to studying expository text. This focus on stories was probably due to the essential first step in any science of examining the simplest materials possible. However, the editors thought that it was time to shift the research focus from stories to expository text and this volume is their attempt to provide this transition.
