Eye Of Terra The Horus Heresy - ME
Eye of Terra is another collection of short stories and novella. I can hear you groaning already, but it's OK. Not having read Aurelian before, it was worth it for me to read about his pilgrimage. Lorgar is one of my favorites, and being able to get 118 pages of development for him is worth the price of admission, IMO.

Created in the Emperor's own image, the primarchs had long thought themselves to be princes of the universe and masters of their own destiny--they led the Space Marine Legions in glorious conquest of the galaxy, and no enemy of the Imperium could stand against them. Gathered within this anthology are four novellas focusing on some of the mightiest warriors and leaders that mankind has ever known--Fulgrim, Ferrus Manus, Lion El'Jonson and the twin primarchs Alpharious and Omegon--and the roles that they may have yet to play in war which threatens to change the face of the Imperium forever.
