In the early 1990s, Sony released the first HD Trinitron TV set, for use with the Multiple sub-Nyquist sampling encoding standard. In 1980, Sony introduced the "ProFeel" line of prosumer component televisions, consisting of a range of Trinitron monitors that could be connected to standardized tuners. The original lineup consisted of the KX-20xx1 20" and KX-27xx1 27" monitors (the "xx" is an ...

"[Western Music and Its Others] will be taken as an important book signalling a new turn within the field. It takes the best features of traditional, rigorous scholarship and brings these to bear upon contemporary, more speculative questions. The level of theoretical sophistication is high. The studies within it are polemical and timely and of lasting scholarly value."--Will Straw, co-editor of *Theory Rules: Art as Theory/ Theory and Art* "The great value of this collection lies in the wealth of questions that it raises--questions that together crystallize the recent concerns of musicology with force and clarity. But it also lies in the authors' resistance to the easy 'postmodernist' answers that threaten to turn new musicology prematurely grey. The editors' comprehensive, intellectually adventurous introduction exemplifies the sort of eager yet properly skeptical receptivity to scholarly innovation that fosters lasting disciplinary reform. It alone is worth the price of the book." --Richard Taruskin, author of *Stravinsky and the Russian Traditions: A Biography of the Works Through "Mavra"* "When cultural-studies methods first appeared in musicology 15 years ago, they triggered a storm of polemics that sometimes overshadowed the important issues being raised. As the canon wars recede, however, scholars are finding it possible to focus on the concerns that led them to cultural criticism in the first place: the study of music and its political meanings. *Western Music and Its Others* brings together leading musicologists, ethnomusicologists, and specialists in film and popular music to explore the ways European and North American musicians have drawn on or identified themselves in tension with the musical practices of

Others. In a series of essays ranging from examination of the Orientalist tropes of early 20th-century Modernists to the tangled claims for ownership in today's World Music, the authors in this collection greatly advance both our knowledge of specific case studies and our intellectual awareness of the complexity and urgency of these problems. A timely intervention that should help push music studies to the next level." --Susan McClary, author of *Conventional Wisdom: The Content of Musical Form* (2000) "This collection provides a sophisticated model for using theory to interrogate music and music to interrogate theory. The essays both take up and challenge the dominance of notions of representation in cultural theory as they explore the relevance of the concepts of hybridity and otherness for contemporary art music. Sophisticated theory, erudite scholarship and a very real appreciation for the specificities of music make this a powerful and important addition to our understanding of both culture and music." --Lawrence Grossberg, author of *Dancing in Spite of Myself*

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at

length cotton and sugar cultivation on major plantations in Louisiana.

Describes symptoms for hundreds of Macintosh hardware problems, offers a suggested solution for each one, and provides cost estimates for repairs

Now available in paperback, with an all new Reader's guide, The New York Times and Business Week bestseller Co-opetition revolutionized the game of business. With over 40,000 copies sold and now in its 9th printing, Co-opetition is a business strategy that goes beyond the old rules of competition and cooperation to combine the advantages of both. Co-opetition is a pioneering, high profit means of leveraging business relationships. Intel, Nintendo, American Express, NutraSweet, American Airlines, and dozens of other companies have been using the strategies of co-opetition to change the game of business to their benefit. Formulating strategies based on game theory, authors Brandenburger and Nalebuff created a book that's insightful and instructive for managers eager to move their companies into a new mind set.

This oversized lift-the-flap board book of a child's first 101 words has big, clearly labeled photos of objects in a baby and toddler's world with an interactive puzzle activity on each spread. Identifying words and their meanings is an important foundational step in language development for babies and toddlers, and Highlights brings Fun with a Purpose® into this essential learning. Babies will love looking at and naming the photos in this sturdy book, while toddlers and parents will enjoy the lift-the-flap questions and answers that help them find the cute red bird hidden on each spread.

This book is not a dictionary, though it tells you all you need know about everything from Authenticity to Zips. It's not an autobiography, though it does offer a

revealing and highly personal inside view of contemporary culture. It's an essential tool kit for understanding the modern world. It's about what makes a Warhol a genuine fake; the creation of national identities; the mania to collect. It's also about the world seen from the rear view mirror of Grand Theft Auto V; digital ornament and why we value imperfection. It's about drinking a bruisingly dry martini in Adolf Loo's American bar in Vienna, and about Hitchcock's film sets. It's about fashion and technology, about politics and art.
