Finance for the Nonfinancial Manager, Fourth Edition. If you're a manager, odds are you're playing a larger and more important role in the financial matters of your company. As today's marketplace becomes increasingly competitive, it's essential that all managers have a basic understanding of the tools, objectives, and functions of finance if they are to stay ahead of the competition. Covering the gamut of the "numbers" end of management, Finance for the Nonfinancial Manager helps you develop a sound basis for carrying out strategic financial planning and decision-making responsibilities. This comprehensive reference has served as an indispensable guide for executives, managers, and small business owners for almost two decades. Now in its fourth edition, this classic has been updated to reflect the latest federal tax and regulatory legislation, and it is filled with new charts, tables, and examples suitable for the needs of today's manager. From basic economic concepts to accounting conventions, the broad range of topics examined in Finance for the Nonfinancial Manager include: cash flow management, banking relationships, security markets, credit policies, and capital acquisition. You'll also find practical guidelines for such important skills as how to: * Interpret balance sheets. * Design budgets and P & Ls. * Apply break-even analyses. * Decipher financial statements. Now more than ever, being a manager in the competitive marketplace requires a solid understanding of key aspects of finance. This revised and expanded edition of Finance for the Nonfinancial Manager shows you how to get a handle on the basic concepts and principles you need to run and maintain a successful business.

Financial Management for Non-Financial Managers is an accessible, practical and easy to understand guide that will allow any manager to gain confidence in understanding financial matters, managing a budget and dealing with bankers, accountants and finance professionals. A source of invaluable expert advice on all the essential aspects of financial management within the context of running a business, it covers: business structures, accounting and financial statements, analysis and ratios, planning, budgeting, product and service costing, setting selling prices, investment appraisal, finance and working capital, taxation and international transactions. This book explains financial literacy in the context of management, showing how improved awareness of finances can lead to increased value creation and protection for your business. Aimed at the practicing business manager, Financial Management for Non-Financial Managers includes case studies, spreadsheets and worked examples to accompany key skills and practices explained in the book.
