A fish trap is a trap used for fishing. Fish traps can have the form of a fishing weir or a lobster trap. Some fishing nets are also called fish traps, for example fyke nets. A typical contemporary trap consists of a frame of thick steel wire in the shape of a heart, with chicken wire stretched around it. The mesh wraps around the frame and then tapers into the inside of the trap. When a fish swims inside through this opening, it cannot get out, as the chicken wire opening bends back into its or
