Food safety is a major factor affecting public health and the well-being of society. A possible solution to control food-borne illnesses is through real-time monitoring of the food quality throughout the food supply chain. The development of emerging technologies, such as active and intelligent packaging, has been greatly accelerated in recent years, with a focus on informing consumers about ...

Dietro ogni soluzione di food packaging, in realtà, ci sono complesse decisioni di rigorosa natura tecnica e normativa. L’operazione di confezionamento, specie per prodotti deperibili ed indispensabili come gli alimenti, è parte essenziale di un processo articolato, di natura logistica, collegato alle tecnologie di produzione, trasformazione e conservazione.
