ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- A practice-oriented learning system that breaks the traditional textbook mold. To help readers focus on the most important concepts-and effectively practice application of those concepts-Essential Foundations of Economics is structured around a Checklist/Checkpoint system. The result is a patient, confidence-building textbook that prepares readers to use economics in their everyday life, regardless of what their future career will be.

Everyone agrees that the only way to learn economics is to do it. Rote memorization does not work. The keys to success in economics are active involvement and working problems. To help students succeed, the Bade/Parkin package is designed to encourage learning by doing. After all, practice makes perfect! Practice is the cornerstone of the innovative Bade/Parkin approach. Each chapter of Foundations of Economics concentrates on a manageable number of core concepts. A full page Checkpoint containing a Practice Problem with solution and a parallel Exercise immediately follows each main idea. Checkpoints serve as stopping points and encourage students to practice using a concept before moving on. Different learning styles need different learning tools, and eFoundations, Bade/Parkin's extensive web environment, puts students in the driver's seat and allows them to use technology in the way that suits them best.

A practice-oriented learning system that breaks the

traditional textbook mold. To help readers focus on the most important concepts—and effectively practice application of those concepts—Foundations of Microeconomics is structured around a Checklist/Checkpoint system. The result is a patient, confidence-building textbook that prepares readers to use economics in their everyday life, regardless of what their future career will be.

For undergraduate courses in sports economics, this book introduces core economic concepts developed through examples from the sports industry. The sports industry provides a seemingly endless set of examples from every area of microeconomics, giving students the opportunity to study economics in a context that holds their interest. The Economics of Sports explores economic concepts and theory of industrial organization, public finance, and labor economics in the context of applications and examples from American and international sports.

Written by authors with years of academic, regional, and city planning experience, the classic Planning Local Economic Development has laid the foundation for practitioners and academics working in planning and policy development for generations. With deeper coverage of sustainability and resiliency, the new Sixth Edition explores the theories of local economic development while addressing the issues and opportunities faced by cities, towns, and local entities in crafting their economic destinies within the global economy. Nancey Green Leigh and Edward J. Blakely provide a thoroughly up-to-date exploration of planning processes, analytical techniques and data, and locality, business, and human resource development, as well as advanced

technology and sustainable economic development strategies.

A leading text for courses in K-8 reading methods This is the K-8 reading methods book with the strongest focus on comprehension instruction, motivation, and assessment. Informed by the latest research on topics ranging from phonemic awareness and phonics to teaching comprehension strategies, motivation, and assessment, this text provides the knowledge base, skills, and research-based strategies that all teachers need to guide K-8 students successfully toward literacy for the 21st century-using reading and writing for thinking, problem solving, and communicating. Principal themes include balancing phonemic skills with more holistic approaches; fostering the love of reading; and successfully teaching all students to become able and eager readers. The outstanding author and contributor team includes experts in phonemic awareness and word recognition (Connie Juel, Stanford University), vocabulary and comprehension (Michael Graves, University of Minnesota), children's literature and writing (Bonnie Graves, a widely published children's author), and Peter Dewitz (a national educational consultant working with schools districts on comprehension, differentiation and intervention.

"This primary text for advanced clinical practice courses at the core of the MSW curriculum, teaches students how to integrate theory and practice on multiple levels. Building on the foundation of generalist courses, this student-friendly text addresses assessment within a theoretical framework that considers the use of DSM-IV and the mental status exam; includes a step-by-step walkthrough of a clinical interview and the stages of treatment; and examines various
