If you work in a university, you are almost certain to have heard the term 'open access' in the past couple of years. You may also have heard either that it is the utopian answer to all the problems of research dissemination or perhaps that it marks the beginning of an apocalyptic new era of 'pay-to-say' publishing. In this book, Martin Paul Eve sets out the histories, contexts and controversies for open access, specifically in the humanities. Broaching practical elements alongside economic histories, open licensing, monographs and funder policies, this book is a must-read for both those new to ideas about open-access scholarly communications and those with an already keen interest in the latest developments for the humanities. This title is also available as Open Access via Cambridge Books Online.

Full of practical writing assignments and supplemented with its own Companion Website, this adaptable, state-of-the-art book teaches students in all disciplines to write research papers and to search libraries and Web sites in preparation for drafting and documenting research papers. Technically two books in one (a guide to writing research papers and an introduction to library and Web searching), it demonstrates how to search libraries and the Internet (including e-mail, listservs, and online forums); illustrates how to find, evaluate, save, and organize the resources located; and shows how to integrate and cite sources within the research paper. For students assigned to complete a research paper or project.

Multiple Choice Questions (MCQs) are the backbone for all entrance examinations throughout the world. MCQs are used to evaluate student's cognitive acumen in all the fields and discipline. This book contains 28 chapters covering almost all of the biochemistry syllabus through 3500+ MCQs. Each MCQ is validated from the reference biochemistry books. The book is mainly designed for the undergraduate, postgraduate, MBBS medical biochemistry students of medical, pharmacy, physiotherapy, nursing, medical laboratory sciences and other allied courses. This book can also be useful for the PG entrance exam of various universities, NET examinations, USMLE entrance examinations, etc. It includes questions from all categories, i.e. from the simplest ones to real brain teasers, in order to cater the needs of the unprepared students who start studying at the eleventh hour, besides, of course, the committed ones who are well conversant with the subject. The book is based on the current pattern of exam, and will prove very useful for studying, practice and during precious moments before the exam for reference and revision. It is highly recommended to sharpen your problem solving skills with thorough practice of numerous questions provided in the book, and prepare to face the exam confidently and successfully.

Meditation outlines a unique approach to tapping inner resources by training concentration on inspirational passages. Eknath Easwaran's practical Eight Point Program offers specific, systematic tools to sharpen concentration, deal effectively with stress, release deep reserves of energy, and transform anger and other destructive emotions.
