The unique 'teaching feature' of each volume in the series is the grouping of different question types to cover a specific key topic which is explained in its entirety on the facing page, giving each double-page spread a focus on an aspect of core knowledge that can thereby be revised on its own or as part of a larger programme.

A revision book for the One Stop Doc revision series which covers the key facts for the Renal & Metabolic module in the form of Short Answer Questions, Multiple Choice Questions, Extended Matching Questions, and Problem-based Questions. Illustrated with simple, easily-reproduced line diagrams, this book will provide all the necessary information for exam success. The unique 'teaching feature' of each volume in the series is the grouping of different question types to cover a specific key topic which is explained in its entirety on the facing page, giving each double-page spread a focus on an aspect of core knowledge that can thereby be revised on its own or as part of a larger programme.

The One Stop Doc books have been designed by medical students for medical students to consolidate their knowledge, subject by subject and system by system. For each area studied there are only so many questions an examiner can ask; they are presented here with clear explanations that allow the student to revise thoroughly one topic at a time. While doing so the student can also practise their exam technique. Each book includes MCQs, EMQs, SAQs and Problem-based Questions - exactly the kind of questions they will get in their exams. Illustrated with simple, easy-to-reproduce line drawings, medical students have in this one volume all that they need for exam success.
