The founder of the McDonald's hamburger chain tells of his early business ventures and his success in developing a single restaurant in Illinois into an international operation

Discusses the people, the strategies, and the innovations that turned a hamburger stand into a multi-billion-dollar corporation that revolutionized an industry and influenced the culture of America.

The movie The Founder, starring Michael Keaton, focused the spotlight on Ray Kroc, the man who amassed a fortune as the chairman of McDonald's. But what about his wife Joan, the woman who became famous for giving away his fortune? Lisa Napoli tells the fascinating story behind the historic couple. Ray & Joan is a quintessentially American tale of corporate intrigue and private passion: a struggling Mad Men-era salesman with a vision for a fast-food franchise that would become one of the world's most enduring brands, and a beautiful woman willing to risk her marriage and her reputation to promote controversial causes that touched her deeply. Ray Kroc was peddling franchises around the country for a fledgling hamburger stand in the 1950s; McDonald's, it was called; when he entered a St. Paul supper club and encountered a beautiful young piano player who would change his life forever. The attraction between Ray and Joan was instantaneous and instantly problematic. Yet even the fact that both were married to other people couldn't derail their roller coaster of a romance. To the outside world, Ray and Joan were happy, enormously rich, and giving. But privately, Joan was growing troubled over Ray's temper and dark secret, something she was reluctant to publicly reveal. Those close to them compared their relationship to that of Elizabeth Taylor and Richard Burton. And yet, this volatility paved the way for Joan's transformation into one of the greatest philanthropists of our time. A force in the peace movement, she produced activist films, books, and music and ultimately gave away billions of dollars, including landmark gifts to the Salvation Army and NPR. Together, the two stories form a compelling portrait of the twentieth century: a story of big business, big love, and big giving.

As it happened is a landmark memoir, the first of its kind by a giant of the communications media. It is the intimate and straightforward story of an original, the life and growth of an extraordinary man and the company he built, CBS. In the book, William S. Paley reminisced about his personal life and his life with CBS; from the celebrities of the entertainment world to the business and political leaders of America to the journalistic controversies still in the news. Paley bought CBS when it was a small struggling company called United Independent Broadcasting and when he was a young man still in his twenties. Within months he had begun a transformation which shaped CBS into one of the world's greatest communications empires. And still he found time to enjoy the "Roaring Twenties" in Paris, Philadelphia, Los Angeles, and New York. A brilliant and creative businessman dealing for high stakes, Paley foresaw the cultural and informational impact of radio, and later, television. With an uncanny eye for spotting entertainment talent, he "discovered" for radio Bing Crosby, Kate Smith, Will Rogers, Frank Sinatra, and Paul Whiteman; and those he did not discover, he lured to CBS: Jack Benny, Amos and Andy, George Burns, Red Skelton, and a host of others. But this book covers more than radio and television; it is about the tastes and trends of American culture, written by the man who helped to create and refine many of them. William S. Paley was CBS. His life touched virtually every major event of the twentieth century. This is a fascinating and revealing work about a man who perhaps more than any other, brought the great events of our times to us.

Meet a genuine American folk hero cut from the homespun cloth of America's heartland: Sam Walton, who parlayed a single dime store in a hardscrabble cotton town into Wal-Mart, the largest retailer in the world. The undisputed merchant king of the late twentieth century, Sam never lost the common touch. Here, finally, inimitable words. Genuinely modest, but always sure if his ambitions and achievements. Sam shares his thinking in a candid, straight-from-the-shoulder style. In a story rich with anecdotes and the "rules of the road" of both Main Street and Wall Street, Sam Walton chronicles the inspiration, heart, and optimism that propelled him to lasso the American Dream.

John has never been a stranger to hard work. As a young man he started a hip-hop inspired fashion brand on the streets of Queens, New York, with a \$40 budget; today his brand, FUBU, has over \$6 billion in sales. The truth, he says, is that if you want to get and stay ahead, you need to put in the work. You need to outthink, out hustle, and outperform everyone around you. You've got to rise and grind every day. Here John shares the habits and mind-set that empower him, letting us in on how he makes the most of his 24/7. And he opens up about his recent cancer scare and how it fuels him to continue to challenge himself.
