How to Replace a Timing Belt | YourMechanic Advice

Your timing belt should be replaced every 50,000–70,000 miles, depending on your car's make and model. Also, make sure you understand if your engine is an interference engine or a non-interference engine. In an interference engine, the valves and piston share the same airspace and the timing belt keeps them from touching. This is why you'll have a major engine failure on your hands if the belt breaks or skips.

How to Know When to Replace Your Timing Belt

Timing Belt Replacement Costs Some examples of the timing belt replacement costs for some common vehicles using \$100 per hour labor rate are as follows: For a 2003 Honda Accord with a 3.0-liter engine, the estimated labor time is around 4.6 hours. A factory replacement belt costs about \$104 and a Dayco belt costs about \$19.

Timing Belt Replacement Cost Guide 2020 (Updated)
