Harley Davidson Engineering Department - orrisrestaurant.com

In 1907, William S. Harley graduated from the University of Wisconsin-Madison with a degree in mechanical engineering. That year, they expanded the factory with a second floor and later with facings and additions of Milwaukee pale yellow ("cream") brick. With the new facilities, production increased to 150 motorcycles in 1907.

From April through June the engineering department consentrated on shedding pounds from the Forty-five overhead-valve. William S. Harley still believed that the Forty-five overhead-valve could be built for about the same cost as the Seventy-four side-valve. In April the Forty-five overhead-valve was canceled as a 1940 model.
