3.1 International trade: Free trade The benefits of free trade Countries are able to specialise in the production of goods and services that they are best at which means costs tend to be less. For instance, it is cheaper to grow tropical fruits in the warmer climates and import them than to try to grow them in the UK.

1.1 Competitive Markets – Demand. The law of demand states that as price of a good increases, ceteris paribus (all else being equal), quantity demanded will decrease. (It also works the other way around: as price of a good decreases, ceteris paribus, quantity demanded will increase). The law of demand explains why the demand curve is downward sloping.

~~Demand~~ — Assistance with your IB Economics course!

I. Course description and aims. Economics is an exciting, dynamic subject that allows students to develop an understanding of the complexities and interdependence of economic activities in a rapidly changing world. At the heart of economic theory is the problem of scarcity. Owing to scarcity, choices have to be made.
