In terms of ICT, data is simply any numbers, letters or symbols that can be entered into a computer system. Here are some items of data: A, 20, DOG, 3.1415927, ABC123, +++ But what do they mean? Who knows? They could mean anything! Data values don't have any meaning unless we put them into context (context means a setting or circumstance). For instance, in the above example what does the ...
