iPhoto: The Missing Manual: 2014 release, covers iPhoto 9.5 for Mac and 2.0 for iOS 7 (Missing Manuals) by David Pogue and Lesa Snider | May 12, 2014 3.9 out of 5 stars 26

The New York Times bestselling author of *The Benedict Option* draws on the wisdom of Christian survivors of Soviet persecution to warn American Christians of approaching dangers. For years, émigrés from the former Soviet bloc have been telling Rod Dreher they see telltale signs of "soft" totalitarianism cropping up in America--something more *Brave New World* than *Nineteen Eighty-Four*. Identity politics are beginning to encroach on every aspect of life. Civil liberties are increasingly seen as a threat to "safety". Progressives marginalize conservative, traditional Christians, and other dissenters. Technology and consumerism hasten the possibility of a corporate surveillance state. And the pandemic, having put millions out of work, leaves our country especially vulnerable to demagogic manipulation. In *Live Not By Lies*, Dreher amplifies the alarm sounded by the brave men and women who fought totalitarianism. He explains how the totalitarianism facing us today is based less on overt violence and more on psychological manipulation. He tells the stories of modern-day dissidents--clergy, laity, martyrs, and confessors from the Soviet Union and the captive nations of Europe--who offer practical advice for how to identify and resist totalitarianism in our time. Following the model offered by a prophetic World War II-era pastor who prepared believers in his Eastern European to endure the coming of communism, *Live Not By Lies* teaches American Christians a method for resistance: **SEE**: Acknowledge the reality of the situation. **JUDGE**: Assess reality in the light of what we as Christians know to be true. **ACT**: Take action to protect truth. Aleksandr Solzhenitsyn famously said that one of the biggest mistakes people make is assuming totalitarianism can't happen in their country. Many American Christians are making that mistake today, sleepwalking through the erosion of our freedoms. *Live Not By Lies* will wake them and equip them for the long resistance.

Photography is not dying and has not died. It has been an ever-changing medium since its earliest days, and while near-obsession with the technology of the day may have defined photography over the course of its existence, photography is so much more than hardware and software. Photography is communication, whether chemical or digital, tangible or ephemeral in form. *Photography Beyond Technique* is a compelling selection of essays and images that reveal the thoughts and methods of some of today's most exciting contemporary photographers. These artists employ alternative, historical, or handmade processes and techniques, and they share a comprehensive view of the medium: that the choice of photographic process is just as important as the selection of subjects. While other books concentrate solely on process, or theory, or artistic intent, none focus on photography in which these decisions are considered inseparable. These 20 essays, originally presented at the annual F295 symposium and seminar series, provide a thought-provoking read for anyone interested in photography as an art form and as a medium through which to view the world. Includes: "Looking Backward, Seeing Forward: Reframing Visual History" by Robert Hirsch "Mystery, Memory, and Narrative" by Martha Casanave "Finding Confidence: Combining Process with Purpose" by Mark Osterman "Photograph, Material, and Metaphor" by Jerry Spagnoli
