A solid foundation for students moving into the 21st century. The Coordinated Science Teacher's Resource Book supports the two students' texts - Coordinated Science 1 and 2 - by providing full answers to questions, comprehensive equipment and resource lists, help with practical work, suggestions for teaching approaches and assessments, ideas for using information technology, and further activities for the students in the form of photocopiable worksheets.

"Each chapter begins with a community-based problem or issue that can only be solved by developing key ideas and understandings in the chapter activities."--Publisher's Web site.

This book presents comprehensive results from case studies of five innovations in science education that have much to offer toward understanding current reforms in this field. Each chapter tells the story of a case in rich detail, with extensive documentation, and in the voices of many of the participants—the innovators, the teachers, the students. Similarly, Volume 3 of *Bold Ventures* presents the results from case studies of five innovations in mathematics education. Volume 1 provides a cross-case analysis of all eight innovations. Many U.S. readers certainly will be very

familiar with the name of at least one if not all of the science innovations discussed in this volume—for example, Project 2061—and probably with their general substance. Much of the education community's familiarity with these arises from the projects' own dissemination efforts. The research reported in this volume, however, is one of the few detailed studies of these innovations undertaken by researchers outside the projects themselves. Each of the five studies was a large-scale effort involving teams of researchers over three years. These teams analyzed many documents, attended numerous critical project meetings, visited multiple sites, conducted dozens of

researcher and former director of the UCLA teacher education program. Martin Lipton is an education writer and consultant and has taught in public schools for 31 years. Lauren Anderson and Jamy Stillman are former public school teachers, now working as teacher educators. This unique, comprehensive foundational text considers the values and politics that pervade the U.S. education system, explains the roots of conventional thinking about schooling and teaching, asks critical questions about how issues of power and privilege have shaped and continue to shape educational opportunity, and presents powerful examples of real teachers working for equity and

justice. Taking the position that a hopeful, democratic future depends on ensuring that all students learn, the text pays particular attention to inequalities associated with race, social class, language, gender, and other social categories and explores teachers role in addressing them. The text provides a research-based and practical treatment of essential topics, and it situates those topics in relation to democratic values; issues of diversity; and cognitive, sociocultural, and constructivist perspectives on learning. The text shows how knowledge of education foundations and history can help teachers understand the organization of today s schools, the content of contemporary

Answers curriculum, and the methods of modern teaching. It likewise shows how teachers can use such knowledge when thinking about and responding to headline issues like charter schools, vouchers, standards, testing, and bilingual education, to name just a few. Central to this text is a belief that schools can and must be places of extraordinary educational quality and institutions in the service of social justice. Thus, the authors address head-on tensions between principles of democratic schooling and competition for always-scarce high-quality opportunities. Woven through the text are the voices of a diverse group of teachers, who share their analyses and personal anecdotes concerning what
