There really is more to this life than you've been told. We've been demanding our way since day one ... "I want a spouse that makes me happy and coworkers that always ask my opinion." "I want weather that suits me and traffic that helps me and government that serves me." Self-promotion. Self-preservation. Self-centeredness ... "It's all about me." They all told us it was, didn't they? And we took them up on it. We thought self-celebration would make us happy ... But believing that has created chaos -- noisy homes, stress-filled businesses, cutthroat relationships. We've chased so many skinny rabbits, says Max Lucado, that we've missed the fat one: the God-centered life. If you want to shift into high gear with purpose, this is it: life makes sense when we accept our place! Our pleasures, our problems, our gifts and talents ... when they're all for the One who created us, we suddenly gain what we've been missing and find what we've been seeking. Let Max Lucado show you how to make the shift of

Successful businessman and bestselling author Andrew Griffiths has a simple but effective message to share: it's time to stop analysing our lives and time to start living. Andrew defines 'The Me Myth' as the limiting belief that the world revolves around 'me'. In short chapters he gives advice on how to shift the focus away from 'me' and start living a better life through simple actions like mastering empathy, giving generously, inspiring people and having fun. The message is simple, but profound. And, most importantly, Andrew makes the journey fun! The Me Myth is a result of Andrew's observations as well as his own personal journey. His life has been filled with extraordinary hardships and obstacles, from an unusual childhood to near-death experiences, which he has not only overcome, but thrived on. This is the next step in personal growth - it's time to move away from internal analysis and move the focus outwards

The young reader may fill in the appropriate personal data to complete his "very own" autobiography.

A little boy is upset and jealous when his baby brother is born, but his parents reassure him that he is still special.

Years in Europe chasing the ultimate adrenaline rush in deep snow or pursuing women with equal fervor were history. Real life was bearing down from all directions. Failure, something never experienced before was ego crushing. Being a single parent at an age far older than most have to cope with brought about responsibility and rules. Both had been avoided at all costs up until now. Working because of necessity instead of fun increased anxiety on a daily basis. In a new country challenges were everywhere. Many might have given up but Jack pushed ahead using skills learned from his past to achieve limited success as he moved from one business opportunity to another. Personal life was an up and down affair with ladies in and out of his life like the change of seasons. He understood as the years passed that everyday normal life was NO FUN. More and more he reverted to doing things his way following a path that he hoped eventually would lead to the freedom he had once experienced. It was many years of a life in transition. It's Not Only About Me continues on from It's All About Me and a few others in the tradition of honestly relating how Jack's views and style of living is far different than most. Thirty new photos document the journey.

A counterintelligence expert shows readers how to use trust to achieve anything in business and in life. Robin Dreeke is a 28-year veteran of federal service, including the United States Naval Academy, United States Marine Corps. He served most recently as a senior agent in the FBI, with 20 years of experience. He was, until recently, the head of the Counterintelligence Behavioral Analysis Program, where his primary mission was to thwart the efforts of foreign spies, and to recruit American spies. His core approach in this mission was to inspire reasonable, well-founded trust among people who could provide valuable information. The Code of Trust is based on the system Dreeke devised, tested, and implemented during years of field work at the highest levels of national security. Applying his system first to himself, he rose up through federal law enforcement, and then taught his system to law enforcement and military officials throughout the country, and later to private sector clients. The Code of Trust has since elevated executives to leadership, and changed the culture of entire companies, making them happier and more productive, as morale soared. Inspiring trust is not a trick, nor is it an arcane art. It's an important, character-building endeavor that requires only a sincere desire to be helpful and sensitive, and the ambition to be more successful at work and at
