Leading academics from around the world, who specialize in analysing maritime strategic issues, deliberate the impact of the American 'pivot' or 're-balance' strategy, and the 'Air-Sea Battle' operational concept, on the maritime power and posture of a number of selected states. Intending to strengthen US economic, diplomatic, and security engagement throughout the Asia-Pacific, both bilaterally and multilaterally, the re-balance stands out as one of the Obama administration's most far-sighted and ambitious foreign policy initiatives.

Post Cold War international relations have undeniably been a litmus test for the bilateral relations between

Online Library June 2014 Matric Exemplar Papers

India and Russia. With the emergence of a new international system, the foreign policies of both countries vacillated to explore new avenues of partnerships with other international players, an opportunity that otherwise proved effective to a large extent. National priorities and the geo-political architecture remodelled by the US, thus, compelled New Delhi and Moscow to pursue a foreign policy that moved away from serving the interests of each other. While defining the trends in the bilateral relations between the two countries, the strategic community has questioned whether the relationship can remain as special and strategic as it had been in the past. Are both countries still as relevant to one another as they

Online Library June 2014 Matric Exemplar Papers

once were? As the constant debate revolves around these questions, the two entities have, however, indicated a certain level of distinguishing characteristics in order to address the complexities and challenges in the partnership and have acknowledged that their relationship is not only special but also indispensable. What has also continued to remain undamaged and an integral part of the bilateral relations is mutual trust, understanding and concern, thus, resulting in maturity and pragmatism, irrespective of the uncertainties that the two countries face. It is in this context, that the new stage in the bilateral relations between the two countries requires a thorough

Online Library June 2014 Matric Exemplar Papers

assessment. It stands to reason that with the developments that are taking place in the current international milieu, there is a need for India and Russia to reemphasise their strong strategic partnership, goodwill and diplomatic trust that have stood the test of time. This book undertakes a serious assessment of the strategic partnership in the contemporary international set up. The seven chapters of the book attempt to address the myriad challenges through detailed analyses and evaluation of the partnership between India and Russia in various spheres, including the political, defence, economic, nuclear, energy, science and technology, security, and strategic engagement. Please note:

Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka

This War Report provides detailed information on every armed conflict which took place during 2014, offering an unprecedented overview of the nature, range, and impact of these conflicts and the legal issues they created. In Part I the Report describes its criteria for the identification and classification of armed conflicts under international law, and the legal consequences that flow from this classification. It sets out a list of armed conflicts in 2014, categorising each as international, non-international, or a military

Online Library June 2014 Matric Exemplar Papers

occupation, with estimates of civilian and military casualties. In Part II, each of these conflicts are examined in more detail, with an overview of the belligerents, means and methods of warfare, the applicable treaties and rules, and any prosecutions for, investigations into, or robust allegations of war crimes. Part III of the Report provides detailed thematic analysis of key legal developments which arose in the context of these conflicts, allowing for a more in-depth reflection on cross-cutting questions and controversies. The Report gives a full and accessible overview of armed conflicts in 2014. It should be the first port of call for everyone working in the field.

Online Library June 2014 Matric Exemplar Papers

The United States is at a crossroads. Despite a defense budget that dwarfs that of any of the nation's rivals, the marginal return on this investment has decreased dramatically since the end of World War II. Why? Why have America's rivals, despite inferior resources, increasingly set the terms of international competition? How might America's leaders reconsider the application of power to ensure a favorable place on an increasingly crowded global stage? By tracing the geographic and historical development of four global actors—Russia, Iran, China, and the United States—Phillip T. Lohaus illuminates four equally distinct approaches to competition outside of warfare.

Online Library June 2014 Matric Exemplar Papers

He argues that while America's actions may have birthed information as a currency of power, the nation's failure to fully grasp the implications of this transition has created critical opportunities for its rivals to increase their power at the expense of the United States. The American way of competition, rooted in a scientific understanding of warfare, may impede effectiveness in the amorphous and unscientific landscape of twenty-first-century competition. From Rome to Britain, complacency has contributed to the downfall of many empires. Yet the slow bleed of American power may still be stanching by an approach to competition that emphasizes subtlety, diffusion, and ubiquity. America has

Online Library June 2014 Matric Exemplar Papers

developed and used these tools in the past—its very survival may hinge on returning to them. Power and Complacency defines the differing perspectives of America's international conflicts and offers possible solutions for reformulating its superpower strengths.

Japan and China have been rivals for more than a millennium. In more recent times, China was the more powerful until the late nineteenth century, while Japan took the upper hand in the twentieth. Now, China's resurgence has emboldened it even as Japan perceives itself falling behind, exacerbating long-standing historical frictions. June Teufel Dreyer's Middle Kingdom and Empire of the Rising Sun

Online Library June 2014 Matric Exemplar Papers

provides a highly accessible overview of one of the world's great civilizational rivalries that ranges from the seventh century to the present. Beginning in the mid-nineteenth century, the shrinking distances afforded by advances in technology and the intrusion of Western powers brought the two into closer proximity in ways that alternately united and divided them. In the aftermath of multiple wars between them, including a long and brutal conflict in World War II, Japan developed into an economic power but rejected militarism. China's journey toward modernization was hindered by ideological and leadership struggles that lasted until the death of Mao Zedong in 1976. The final part focuses on the issues

Online Library June 2014 Matric Exemplar Papers

that dominate China and Japan's current relationship: economic rivalry, memories of World War II, resurgent nationalism, military tensions, Taiwan, the Diaoyu/Senkaku Islands, and globalization. Dreyer argues that recent disputes should be seen as manifestations of embedded rivalries rather than as issues whose resolution would provide a lasting solution to deep-standing disputes. For the paperback edition, she has added a new afterword that takes readers up to the present day.

"Stephen Kumalo, a church minister, receives a letter that changes his life. He must leave his village and travel to the city of Johannesburg, where his sister is

Online Library June 2014 Matric Exemplar Papers

ill and his son is lost. He has never been so far from home, and he is worried about what he will find there - but the situation is much worse than he could have imagined." - back cover.

Motivation makes all the difference. And what's more motivating than the expectation of success? The instructions are clear and to the point, so students can quickly get down to writing practice in these 64-page worktexts. Helpful prompts pack the worktext lesson pages including illustrations, examples, and sample responses. Sample Content: book and movie reviews, travelogue, a character sketch, fashions.

Online Library June 2014 Matric Exemplar Papers

The case for getting back on our feet — now in paperback The humble act of putting one foot in front of the other transcends age, geography, culture, and class and is one of the most economical and environmentally responsible modes of transit. Yet with our modern fixation on speed, this healthy pedestrian activity has been largely left behind. At a personal and professional crossroads, writer, editor, and obsessive walker Dan Rubinstein traveled throughout the U.S., U.K., and Canada to walk with people who saw the act not only as a form of

Online Library June 2014 Matric Exemplar Papers

transportation and recreation, but also as a path to a better world. There are no magic-bullet solutions to modern epidemics like obesity, anxiety, alienation, and climate change. But what if there is a simple way to take a step in the right direction? Combining fascinating reportage, eye-opening research, and Rubinstein's own discoveries, *Born to Walk* explores how far this ancient habit can take us and how much repair is within range, and guarantees that you'll never again take walking for granted.

The Organization of the Petroleum Exporting Countries (OPEC), celebrating its 60th anniversary in 2020, is one of the most recognizable acronyms in

Online Library June 2014 Matric Exemplar Papers

international politics. The organization has undergone decades of changing importance, from political irrelevance to the spotlight of world attention and back; and from economic boom for its members to deep political and financial crisis. This handbook, with chapters provided by scholars and analysts from different backgrounds and specializations, discusses and analyzes the history and development of OPEC, its global importance, and the role it has played, and still plays, in the global energy market. Part I focuses on the relationship between OPEC and its member states. Part II examines the relationship between OPEC and its customers, the consuming countries and their governments, while Part III addresses the

Online Library June 2014 Matric Exemplar Papers

relationship between OPEC and its competitors and potential partners, the non-OPEC producers, and the international oil companies. The final section, Part IV, looks at OPEC and the governance of international energy.
