Alan Johnston's account of his captivity, a celebration of his journalism, and a tribute to freedom.

In January 2007, two boys were found in the home of Michael J. Devlin, a “nice enough guy” who managed a pizza parlor in Kirkwood, Missouri. One boy had been kidnapped four days earlier. The other, Shawn Hornbeck, had been missing for four years. How and why did this fifteen-year old, whose face appeared on thousands of milk cartons and “Have You Seen Me?” posters, stay with his abductor in plain view for four years, only an hour from his family home? From award-winning journalist Kristina Sauerwein comes this riveting story of the American kidnapping that startled the nation and catapulted the chilling reality of Stockholm Syndrome into the spotlight. Shawn had many opportunities to ask for help: he was left alone in his kidnapper’s apartment many times, and had phone and Internet access. But he never tried to escape. This is the first time the full story has been told, complete with interviews with law enforcement, and top psychological experts; and a real-life happy ending.

The Snatch Racket will take the reader behind the scenes of kidnapping crimes that terrified the American public in the 1930s.

In this #1 New York Times bestseller, a child is kidnapped at a presidential retreat and two former Secret Service agents must become private investigators in a desperate search that might destroy them both. A daring kidnapping turns a children's birthday party at Camp David, the presidential retreat, into a national security nightmare. Former Secret Service agents turned private investigators Sean King and Michelle Maxwell don't want to get involved. But years ago Sean saved the First Lady's husband, then a senator, from political disaster. Now the president's wife presses Sean and Michelle into a desperate search to rescue a kidnapped child. With Michelle still battling her own demons, the two are pushed to the limit, with forces aligned on all sides against them-and the line between friend and foe impossible to define...or defend.

When four friends, working at a giant refugee camp in Kenya for Somalis, are hijacked by bandits, John Wells, brought in to find them, goes undercover in a country that isn't his usual playing field where he discovers that the truth behind the kidnappings is far more complex than he imagined. Reprint.

Was Bruno Hauptmann an innocent carpenter, or a cold-blooded killer?

In 1968, during Albert Lepard’s fifth escape from a life sentence at Parchman Penitentiary, he kidnapped Lovejoy Boteler, then eighteen years old, from his family’s farm in Grenada, Mississippi. Three decades later, still beset by half-buried memories of that time, Boteler began researching his kidnapper’s nefarious, sordid life to discover how and why this terrifying abduction occurred. Crooked Snake: The Life and Crimes of Albert Lepard is the true story of Lepard, sentenced to life in Parchman for the murder of seventy-four-year-old Mary Young in 1959. During the course of his sentence, Lepard escaped from prison six times in fourteen years. In Crooked Snake, Boteler pieces together the story of this cold-blooded murderer’s life using both historical records and personal interviews—over seventy in all—with ex-convicts who gravitated to and ran with Lepard, the family members who fed and sheltered the fugitive during his escapes, the law officers who hunted him, and the regular folks who were victimized in his terrible wake. Throughout Crooked Snake, Boteler reveals his kidnapper’s hardscrabble childhood and tracks his whereabouts before his incarceration and during his jailbreaks. Lepard’s escapes take him to Florida, Michigan, Kansas, California, and Mexico. Crooked Snake captures a slice of history and a landscape that is fast disappearing. These vignettes describe Mississippi’s countryside and spirit, ranging from sharecropper family gatherings in Attala County’s Senesha Valley to the twenty-thousand-acre Parchman farm and its borderlands teeming with alligator, panther, bear, and wild boar.

"A wide and thorough investigation." - Lawrence Wright, author ofThe Looming Tower andThe Terror Years Starting in late 2012, Westerners working in Syria -- journalists and aid workers -- began disappearing without a trace. A year later the world learned they had been taken hostage by the Islamic State. Throughout 2014, all the Europeans came home, first the Spanish, then the French, then an Italian, a German, and a Dane. In August 2014, the Islamic State began executing the Americans -- including journalists James Foley and Steven Sotloff, followed by the British hostages. Joel Simon, who in nearly two decades at the Committee to Protect Journalists has worked on dozens of hostages cases, delves into the heated hostage policy debate. The Europeans paid millions of dollars to a terrorist group to free their hostages. The US and the UK refused to do so, arguing that any ransom would be used to fuel terrorism and would make the crime more attractive, increasing the risk to their citizens.We Want to Negotiate is an exploration of the ethical, legal, and strategic considerations of a bedeviling question: Should governments pay ransom to terrorists?

Journalism Ethics: Arguments and Cases for the 21st Century explores the major ethical dilemmas facing journalists in the digital age. Engaging with both the theory and practice of journalism ethics, this text explains the key ethical concepts and dilemmas in journalism and provides an international range of examples and case studies, considering traditional and social media from a global perspective. Journalism Ethics offers an introductory philosophical underpinning to ethics that traces the history of the freedom of expression from the time of Greek philosophers like Aristotle, through the French and American revolutions, to modern day. Throughout the book Patching and Hirst examine ethically-challenging issues such as deception, trial by media, dealing with sources and privacy intrusion. They also explore continuing ethical fault lines around accuracy, bias, fairness and objectivity, chequebook journalism, the problems of the foreign correspondent, the conflicts between ethics and the law and between journalists and public relations consultants. Concluding with a step-by-step guide to ethical thinking on the job, this textbook is an invaluable resource for students of journalism, media and communication.

This book provides journalism students with an easy-to-read yet theoretically rich guide to the dialectics, contradictions, problems, and promises encapsulated in the term ‘journalism ethics’. Offering an overview of a series of crises that have shaken global journalism to its foundations in the last decade, including the coronavirus pandemic, the Black Lives Matter movement, and the 2020 US presidential election, the book explores the structural and ethical problems that shape the journalism industry today. The authors discuss the three principle existential crises that continue to plague the news industry: a failing business model, technological disruption, and growing public mistrust of journalism. Other topics covered include social media ethics, privacy concerns, chequebook journalism, as well as a new analysis of journalism theory that critiques the well-worn tropes of objectivity, the Fourth Estate, freedom of the press, and the marketplace of ideas to develop a sophisticated materialist reimaging of journalism ethics. This is a key text for students of journalism, mass communication, and media ethics, as well as for academics, researchers, and communications professionals interested in contemporary journalism ethics.
