Most tachographs produced prior to 1 May 2006 were of the analogue type. Later analogue tachograph head models are of a modular design, enabling the head to fit into a standard DIN slot in the vehicle dashboard. This would enable a relatively easy upgrade to the forthcoming digital models, which were manufactured to the same physical dimensions.

*Tachograph - Wikipedia*

Analogue tachographs do not have a manual input facility so a manual record must be made on the reverse of the record sheet detailing the type of activity and the times started and finished.
