Margaret Morford - America's fastest-rising management strategist - has a no-nonsense message for managers everywhere: In today's fiercely competitive marketplace, you simply cannot afford to be the wishy-washy, "play it safe" manager of yesteryear. Why not? Because managing like that will earn you two rewards: Your best employees hitting the Exit door doing 95 mph and your bottom-line sinking like a stone. Dismissing today's burned-out management theories, Margaret reveals the ultimate 6-step management makeover - Management Courage. In seven profoundly eye-opening chapters, Margaret shows why this unorthodox, revolutionary strategy must be embraced now by every manager and employer wishing to win the impassioned devotion of their employees.

Twelve managers tell how they handled a variety of difficult situations, including AIDS, risk management, empowerment, and turnarounds

BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all

ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

This book reveals the three most important capabilities leaders must demonstrate today: the ability to set strategy, empathize with others, and take risks—all at the same time. In *Head, Heart, and Guts*, leadership experts David Dotlich, Peter Cairo, and Stephen Rhinesmith—who teach and coach CEOs and executive teams throughout the world—argue that to be successful in a complex, matrixed, fast-moving world, "whole" leaders must set strategy, develop trusting relationships with

others, and consistently do the right thing based on personal values. "Partial" leaders, often the product of traditional executive programs, may be successful in the short run, but their companies lose over time. Filled with case studies of companies such as Bank of America, Johnson & Johnson, Novartis, and UBS, Head, Heart, and Guts, lays out specific steps and actions for leaders who want to grow beyond their "leadership comfort zone" and an action plan for companies that want to move beyond tried-and-true leadership development in order to develop "whole" leaders throughout their leadership pipeline.

These qualitative case studies give the prospective superintendent a real-life look at life on the other side of the district CEO's desk. Two dozen superintendents reflect upon their first challenges and growth opportunities that arose during that all-important first year.

"Leading With Courage" offers pragmatic, practical and proven advice for leaders and managers who want to make a bigger impact, sooner. The author's insights are drawn from the interviews he conducted with 40 CEOs and his four decades of experience in five industries as a senior finance and operations executive in the U.S. and Europe. At the core of "Leading With Courage" are nine blind spots that effective leaders and managers are aware of. Those who come in with the answer,

stick with under-performers too long, and try doing everything themselves (three of the nine blind spots) could be among the 40% to 50% of leaders who fail, are fired, or quit within 18 months of starting their leadership role. The book includes a link to a self-assessment that will help readers identify which of the nine blind spots they may have to be on alert for. An inspirational, practical, and research-based guide for standing up and speaking out skillfully at work. Have you ever wanted to disagree with your boss? Speak up about your company's lack of diversity or unequal pay practices? Make a tough decision you knew would be unpopular? We all have opportunities to be courageous at work. But since courage requires risk—to our reputations, our social standing, and, in some cases, our jobs—we often fail to act, which leaves us feeling powerless and regretful for not doing what we know is right. There's a better way to handle these crucial moments—and Choosing Courage provides the moral imperative and research-based tactics to help you become more competently courageous at work. Doing for courage what Angela Duckworth has done for grit and Brene Brown for vulnerability, Jim

These Lessons Will Put You On The Path to Success! When I first earned a promotion to a leadership position, I received no training to develop my skills. The unwritten rule seemed to be that if you received the promotion you must know what you are doing, so now go do it! Sound familiar? Unfortunately, I have talked with thousands of newly promoted leaders over the years that have had the same experience. If you have been thrust into a position of leadership
