Internationally, the ecosystem concept is used as a tool by policymakers to promote innovation and entrepreneurship across city-regions. By building a partnership between the research and policy communities in the two countries, the researchers aim to critically examine and further develop the concept of “ entrepreneurial and innovation ecosystems ” by engaging with policy user communities.

NWBC 's entirely new ecosystem model serves as a tool to evaluate regional support of women ' s entrepreneurship. The convergence of the domains on women-owned ventures, centrally displayed, demonstrates that actors throughout the ecosystem work together to engage, advise, and drive the growth of women entrepreneurs.

~~Entrepreneurial Ecosystem Model~~

In this paper, we show how the Regional Entrepreneurship and Development Index (REDI), a measure of the local entrepreneurship ecosystem, can help to identify the inhibitors to local entrepreneurial discovery processes, in a manner which can support Smart Specialization Strategies (S3) policy prioritisation (Foray et al, 2012; McCann and Ortega-Argiles, 2015 and 2016; Varga et al., 2020). Next, we explain the structure and the calculation methodology of the REDI that is a holistic measure of ...
