She sold herself for rough play and career-making story—not murder!Celia Brentwood, fetish reporter for San Francisco's Inappropriate Voices, agrees to auction herself off as a BDSM slave for thirty days. She plans to write a first-person expos é , but after she's purchased by Garrett Lawrence, the most eligible gay bachelor in town, her story becomes an insider peek at the man whose lover was brutally murdered five years before.Garrett still mourns the loss of his beloved, but the past is hard to let go when it's stalking him. The killer is obsessed with Garrett, and becomes incensed when his target claims a slave. When Celia's ruse is discovered, Garrett sends her away. The killer decides she may not be as hated as Garrett claims and will be the perfect route to lure out his prey.Thom á s Stephanopoulos, one of Garrett's closest friends and confidants, recognizes something special in Celia, a darkness that mirrors his own. After Garrett abandons her, will she accept the lure of self-discovery, he dangles before her? Or will she cling to the man who christened her Kitten?Author's Note: 150 K words Revised and expanded from previous edition

A look at the German High Command during World War II challenges the myth that the German Generals could have won the war had Hitler not interfered, and maps out the history and the personalities of the German Command Structure.

"She shares with us her gold - the conception, trial and error implementation, and initial scientific investigation of a new, educationally-oriented treatment approach that she has named mindfulness-based elder care (MBEC)."-from the Foreword by Saki Santorelli, EdD, MA, Associate Professor of Medicine,Executive Director, Center for Mindfulness in Medicine, Health Care, and SocietyUniversity of Massachusetts Medical School Drawing on years of experience as a geriatric social worker and mindfulness-based stress reduction practitioner, the author has taken Jon Kabat-Zinn's Mindfulness-Based Stress Reduction program and adapted it to the particular needs of elders, their families, and professional caregivers. Mindfulness practices focus on abilities, rather than disabilities, in order to provide paths to the inner strengths and resources that we all possess. McBee's Mindfulness-Based Elder Care conveys the benefits of mindfulness through meditation, gentle yoga, massage, aromatherapy, humor, and other creative therapies to this special population. She provides clear, concise instructions for her program, as well as a wealth of anecdotal and experiential exercises, to help readers at all levels of experience. Hers is the first book to fully explore the value of mindfulness models for frail elders and their caregivers. Features of this groundbreaking volume include: Valuable tips for establishing programs to address each population's specific needs and restrictions Designed for short classes or 8-week courses Detailed experiential exercises for the reader Replete with case studies Clear, easy-to-follow instructions for elders and caregivers at all levels This innovative book is suitable for use with a variety of populations such as nursing home residents with physical and cognitive challenges, community-dwelling elders, direct-care staff, and non-professional caregivers.

This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.

The legacy of Leo Hendrik Baekeland and his development of phenol formal- hyde resins are recognized as the cornerstone of the Plastics Industry in the early twentieth century, and phenolic resins continue to flourish after a century of robust growth. On July 13, 1907, Baekeland led his " heat and pressure " patent related to the processing of phenol formaldehyde resins and identi?ed their unique utility in a plethora of applications. The year 2010 marks the Centennial Year of the prod- tion of phenolic resins by Leo Baekeland. In 1910, Baekeland formed Bakelite GmbH and launched the manufacture of phenolic resins in Erkner in May 1910. In October 1910, General Bakelite began producing resins in Perth Amboy, New Jersey. Lastly, Baekeland collaborated with Dr. Takamine to manufacture phenolic resins in Japan in 1911. These events were instrumental in establishing the Plastics Industry and in tracing the identity to the brilliance of Dr. Leo Baekeland. Phenolic resins remain as a versatile resin system featuring either a stable, thermoplastic novolak composition that cures with a latent source of formaldehyde (hexa) or a heat reactive and perishable resole composition that cures thermally or under acidic or special basic conditions. Phenolic resins are a very large volume resin system with a worldwide volume in excess of 5 million tons/year, and its growth is related to the gross national product (GNP) growth rate globally.

For over 40 years, Warship has been the leading annual resource on the design, development, and deployment of the world's combat ships. Featuring a broad range of articles from a select panel of distinguished international contributors, this latest volume combines original research, new book reviews, warship notes, an image gallery, and much more, maintaining the impressive standards of scholarship and research with which Warship has become synonymous. In the 2019 edition of this celebrated title, articles include Hans Lengerer's exploration of the genesis of the Six-Six Fleet, Michele Cosentino's look at Project 1030, Italy's attempt to create a torpedo-armed attack and ballistic missile submarines, and A D Baker III's drawing feature on the USS Lebanon. Detailed and accurate information is the keynote of all the articles, which are fully supported by plans, data tables and stunning photographs.

Design Recipes for FPGAs: Using Verilog and VHDL provides a rich toolbox of design techniques and templates to solve practical, every-day problems using FPGAs. Using a modular structure, the book gives " easy-to-find " design techniques and templates at all levels, together with functional code. Written in an informal and " easy-to-grasp " style, it goes beyond the principles of FPGA s and hardware description languages to actually demonstrate how specific designs can be synthesized, simulated and downloaded onto an FPGA. This book's " easy-to-find " structure begins with a design application to demonstrate the key building blocks of FPGA design and how to connect them, enabling the experienced FPGA designer to quickly select the right design for their application, while providing the less experienced a " road map " to solving their specific design problem. The book also provides advanced techniques to create " real world " designs that fit the device required and which are fast and reliable to implement. This text will appeal to FPGA designers of all levels of experience. It is also an ideal resource for embedded system development engineers, hardware and software engineers, and undergraduates and postgraduates studying an embedded system which focuses on FPGA design. A rich toolbox of practical FGPA design techniques at an engineer's finger tips Easy-to-find structure that allows the engineer to quickly locate the information to solve their FGPA design problem, and obtain the level of detail and understanding needed

The National Wildfire Coordinating Group provides national leadership to enable interoperable wildland fire operations among federal, state, local, tribal, and territorial partners. Primary objectives include: Establish national interagency wildland fire operations standards; Recognize that the decision to adopt standards is made independently by the NWCG members and communicated through their respective directives systems; Establish wildland fire position standards, qualifications requirements, and performance support capabilities (e.g. training courses, job aids) that enable implementation of NWCG standards; Support the National Cohesive Wildland Fire Management Strategy goals: to restore and maintain resilient landscapes; create fire adapted communities; and respond to wildfires safely and effectively; Establish information technology (IT) capability requirements for wildland fire; and Ensure that all NWCG activities contribute to safe, effective, and coordinated national interagency wildland fire operations. The "NWCG Standards for Interagency Incident Business Management" assists participating agencies of the NWCG to constructively work together to provide effective execution of each agency's incident business management program by establishing procedures for: - Uniform application of regulations on the use of human resources, including classification, payroll, commissary, injury compensation, and travel. - Acquisition of necessary equipment and supplies from appropriate sources in accordance with applicable procurement regulations. - Management and tracking of government property. - Financial coordination with the jurisdictional agency and maintenance of finance, property, procurement, and personnel records, and forms. - Use and coordination of incident business management functions as they relate to sharing of resources among federal,

state, and local agencies, including the military. - Documentation and reporting of claims. - Documentation of costs and cost management practices. - Administrative processes for all-hazards incidents.
