The next issue of the Architecture Journal will be focused on Identity Architectures. As more organizations embrace a services based infrastructure, the need to manage the identities of users in an organization becomes more and more important. Issues that have been easy to manage in traditional environments need now to be considered from the perspective of services moving to the “

Microsoft Academic understands the meaning of words, it doesn't just match keywords to content. For example, when you type "Microsoft," it knows you mean the institution, and shows you publications authored by researchers affiliated with Microsoft. Similarly, Microsoft Academic knows journal titles, conference names, and many research topics. Try these queries to understand the power of ...
