Military Industrialization And Economic
Development

The evidence in support of the economic gains resulting from the establishment of military industries is quite mixed for developing countries since defense industry is less productive than civilian industry; research indicates that the reallocations from defense spending to

5 Looney (1988) points out that the economic effects of military industrialization can not be considered separate from patterns of military spending. He concludes that developing countries may minimize the adverse impacts of increasing military burdens by creating macro-linkages from the arms industry to the economy.

Military Industrialization and Economic
Development ...

The establishment of a viable capital-goods industry and the constructive intervention of state are necessary preconditions for the military industrialization and its positive spin-off effects. A period of accelerated growth in the world economy facilitates the operation of such a spin-off mechanism.

Military industrialization and economic development: Jordan's defense industry Jordan is a recent entrant to the domestic defense industry with the establishment of King Abdullah II Design and Development Bureau (KADDB) in 1999.

Military industrialization and economic development ...

If the military is any more involved in economic growth, it is likely to be in security- oriented development projects (such as construction of infrastructure), civic action, or disaster relief operations.³In this framework, a stable and secure polity (as a result of

Online Library Military Industrialization And

strong defence capabilities) is able to attract foreign direct investments (FDI) that provides for economic growth and development.

The Political Economy of Defence Industrialization and ...

This book develops a framework for the analysis of the relationship between arms production and economic development in different types of economies and international conditions. Technological and organizational factors are taken into account. The case studies include Japan and Great Britain before World War I and Brazil and the USA after World War II. The main finding of the book is that the ...
