"Monster Goose" just takes delicious advantage of this fact. I often lament how every good twisted tale (like Carolyn Crimi's, "Boris and Bella", Tony DiTerlizzi's, "The Spider and the Fly" or Robert San Souci's, "Cinderella Skeleton") is co-opted by Halloween merely because it's a little dark.

Some people don't like the idea of magic in Monster Hunter. The thought of crafting a magic staff/spell book that gives the player access to spells/summons/etc to use on hunts seems "sacrilege" to some. I've read posts about people even saying that the Wyvern Ignition GS (and possible Punch Lance) shouldn't even be in the game because they don't belong in the

Monster Goose is a book that includes many short stories about characters including werewolves, pirates, kings, and spiders. About every other page is a new poem. This was a fun book that I enjoyed because it includes poems about all different kinds of characteristics.
