From humble beginnings as a 1970s motoring show, Top Gear has gone on to achieve diesel-powered world domination. After Clarkson and producer Andy Wilman successfully pitched a new format to BBC bosses, Top Gear returned to become the irreverent, funny and often controversial show we now know and love. The Star in a Reasonably Priced Car, the Cool Wall and Power Laps by the mysterious Stig have all become staples of Britain's favourite Sunday evening entertainment. Recent series have been defined by their madcap challenges such as driving across Africa in clapped-out bangers - with predictably hilarious results. However, the show's most shocking moment came in 2006, when Hammond suffered serious head injuries while driving a Vampire turbojet drag racing car at over 300mph. Clarkson, Hammond and May; they are the politically-incorrect-joking, stone-washed-denim-wearing, bloke-hero trio for the modern(ish) age. This brilliant, detailed book is fitting tribute to the show, its presenters and its most memorable moments.

For some, the American Dream is a pre-fab house in the suburbs with 2.5 kids and a two-week vacation at the end of the year. To others, it is working a push fruit cart in Oakland in order to put food on the family's table in Oaxaca. In The American Dream Harmon Leon draws upon his experiences of adopting personas and disguises to infiltrate the various institutions of everyday life, living among a diverse range of subcultures and learning first hand how they see their vision and utopia. His incursions include working as a marijuana farmer in a hippie commune in Northern California; becoming a carnie in rural Indiana; visiting a tourist attraction in Mexico (that allows people to simulate illegally crossing the border); venturing to Hollywood while trying to climb the ranks in the star-making machine; and working in the strawberries fields of California with newly arrived immigrants. The American Dream is a funny, satirical, and ultimately poignant take on what it means to be an American today.

In Tribespotting: Undercover Cult(ure) Stories, Harmon Leon dives directly into the eye of the tribal storm, drastically changing his look and attitude as he goes undercover in an exploration of tribalism and its manifestations in modern culture. Employing the same inimitable style that he honed while infiltrating extremist groups, Leon introduces readers to a series of vastly different tribes, including machine gun lovers and white supremacists, freegans and squatters, pickup artists and trophy bride seekers, and furies and viral video stars. Some of these tribes engage in harmless, hobby-loving fellowship while others revolve around the adulation of charismatic celebrities. Some of these tribes strive to uplift the individual via religious enlightenment and a few are actually full-blown cults. But at the root of all these different tribes lies the same psychological need—the desire to be around like-minded people. Gentleman cartoonist Keith Knight provides popular comics that enhance Leon's enlightening narrative.
