Beyond drugs, beyond technology, there will always be the human element, the healer's art. Dr. Cassell discusses the world of the sick, the healing connection and healer's battle, the role of omnipotence in the healer's art, illness and disease, and overcoming the fear of death. Eric J. Cassell, M.D., is an internist and clinical director of the Program for the Study of Ethics and Values in Medicine at Cornell Medical School. His two-volume work *Talking with Patients: The Theory of Doctor-Patient Communication, and Clinical Technique*, is available from The MIT Press in cloth and paperback.

Spoken language is the most important diagnostic and therapeutic tool in medicine, and, according to Dr. Cassell, "we must be as precise with it as a surgeon with a scalpel." In these two volumes, he analyzes doctor-patient communication and shows how doctors can use language for the maximum benefit of their patients. Throughout, Dr. Cassell stresses that patients are complex, changing, psychological, social and physical beings whose illnesses are well represented by their own communication. He proposes that both listening and speaking are arts that can be learned best when they are based on the way that spoken language functions in medicine. Accordingly, Volume I focuses on the workings of spoken language in the clinical setting. It analyzes such important aspects of speech as paralanguage (non-word phenomenon like pause, pitch, and speech rate), how patients describe themselves and their illnesses, the logic of conversation, and the levels of meanings of words. Volume II is a practical, detailed, how to guide that demonstrates the process of history taking and how the doctor can learn the most from the information that the patient has to offer. His arguments are amply illustrated in both volumes by transcripts of real interactions between patients and their doctors. Eric J. Cassell, M.D., an internist and clinical director of the Program for the Study of Ethics and Values in Medicine at Cornell Medical School, is widely recognized in the medical field for his contributions to communications in medicine and for his writings on ethics. *Talking With Patients* is the result of more than ten years of research. His first book, *The Healer's Art*, has achieved the status of an underground classic.

First published in 1998. Routledge is an imprint of Taylor & Francis, an informa company.

Despite the rhetoric, the people of Sub-Saharan Africa are become poorer. From Tony Blair's Africa Commission and the Make Poverty History campaign to the Hong Kong WTO meeting, Africa's gains have been mainly limited to public relations. The central problems remain exploitative debt and financial relationships with the North, phantom aid, unfair trade, distorted investment and the continent's brain/skills drain. Moreover, capitalism in most African countries has witnessed the emergence of excessively powerful ruling elites with incomes derived from financial-parasitical accumulation. Without overstressing the 'mistakes' of such elites, this book contextualises Africa's wealth outflow within a stagnant but volatile world economy.

In 'Against Global Apartheid', Patrick Bond reveals the extent of the economic and human damage caused by policies implemented by World Bank and the IMF in developing countries, particularly South Africa, and argues that there is another way to more socially just economic development.

A STAND ALONE story in the bestselling SIX PACK RANCH series by New York Times Bestselling Author Vivian Arend ----- Three hurting hearts. Too many secrets. One chance to conquer their fears. Over the past year, Travis Coleman lost the two people he allowed closest to his heart. Both gave him ultimatums—then left. Hell if he needs that kind of pain again. Time to move forward without the friends he thought might save him from his dangerous cravings. When Ashley Sims returns to Rocky Mountain House, her rambling lifestyle isn't all she's hoping to change. Travis snagged a piece of her, and while getting tangled in his issues again might be crazy, she hasn't given up on him. Nine months ago, Cassidy Jones walked away to stop his best friend from making a huge mistake. Temptation lingers, though, and when Travis shows up on his turf accompanied by a sensually uninhibited woman, the combination tosses fuel on the banked fire. Passion flares among the three of them, as hot as the summer days. But are they willing to push the limits, and fight for love? Warning: Dirty fighting, dirty talk, dirtier sex—secrets are coming out. Get ready for ménage a trois and cowboy-on-cowboy action, with ropes and crops and the kind of relentless love strong enough to set a man free. Keywords: Canadian Author, cowboy, western, contemporary, small town For readers who enjoy: Jennifer Ryan, Joan Johnston, Kate Pearce, Linda Lael Miller, Lindsay McKenna, Diana Palmer, Maisey Yates, Vicki Lewis Thompson, Lorelei James.
