[This document is a template of a Product Design Specification document for a project. The template includes instructions to the author, boilerplate text, and fields that should be replaced with the values specific to the project.

Product Design Specification Template

The specification is probably the easiest section of a design project, if all the research has been carried out. The specification draws on the information collected and presented during the research section. The specification is a number of

File Type PDF Interior Design Cheat Sheet Template

straightforward statements, made clearly outlining the nature of the project to be designed and manufactured. If the research section has not been ...

Specification - DESIGN AND TECHNOLOGY

While getting my degree in Interior Design, we were taught to make a specification sheet to easily communicate with clients and contractors exactly what products will be going into the space. This acts like a little cheat sheet so that contractors can tell plumbers where the drain for the sink should go based on which sink is being purchased. Here is a preview of the one I have created for the ...
